Unauthorized Access Robert Sloan 2016-04-19 Going beyond current books on privacy and security, this book proposes specific solutions to public policy issues pertaining to online privacy and security. Requiring no technical or legal expertise, it provides a practical framework to address ethical and legal issues. The authors explore the well-established connection between social norms, privacy, security, and technological structure. They also discuss how rapid technological developments have created novel situations that lack relevant norms and present ways to develop these norms for protecting informational privacy and ensuring sufficient information security.

Ahmed v. Buckner and Cooper & Stewart, LLC Anthony J. Bocchino 2019-09-23 Kiya Ahmed had an affair with her married boss, Paul Buckner. After that relationship soured, Kiya was denied partnership at Cooper & Stewart, the accounting firm where she and Paul both worked. Kiya claims discrimination and retaliation caused the denial. The defendants say that her inconsistent job performance led to their decision. Who is right? This well-balanced case file can be won by either party. Ahmed v. Buckner is the new incarnation of the popular case file Polisi v. Clark. The defendant business is now an accounting firm, rather than a law firm. Updated exhibits include computer records, text messages, and emails, allowing lawyers to practice their skills in laying foundations. The deposition file has three witnesses for each side. The trial version includes two additional expert witnesses and their reports. Whether they are law students or practiced lawyers, this engaging case file will hone participants' advocacy skills.

Drawdown Paul Hawken 2018-02-22 NEW YORK TIMES BESTSELLER For the first time ever, an international coalition of leading researchers, scientists and policymakers has come together to offer a set of realistic and bold solutions to climate change. All of the techniques described here - some well-known, some you may have never heard of - are economically viable, and communities throughout the world are already enacting them. From revolutionizing how we produce and consume food to educating girls in lower-income countries, these are all solutions which, if deployed collectively on a global scale over the next thirty years, could not just slow the earth's warming, but reach drawdown: the point when greenhouse gasses in the atmosphere peak and begin to decline. So what are we waiting for?

Violence Assessment and Intervention James S. Cawood 2019-10-21 Violence Assessment and Intervention: The Practitioner's Handbook, now in its third edition, provides a proven methodology, grounded in the current empirical research and the authors' experience in successfully assessing and managing thousands of cases in a variety of contexts and environments, for analyzing concerning behaviors and potential threatening situations, and taking action in these challenging, dynamic environments before tragedy occurs. Threat and violence assessment and management is an essential process in reducing violence and its consequences. The ongoing challenge for those assessors, particularly in common workplace environments (e.g., educational settings, public agency settings, and business settings), is applying the applicable behavioral science research in a practical and effective manner to maximize safety. The book begins by demonstrating the threat and violence assessment process from the point of the initial call and proceeds through the steps that quantify the situation and determine the appropriate response. The next section covers information gathering, victimology, and formulas and tools for risk assessment. Finally, the book explores organizational influences, school violence, ethics, security and consultation issues; the formation and running of threat management teams, and relevant laws related to violence assessment. This book is a valuable reference for human resource professionals, security professionals, mental health practitioners, law enforcement personnel, and lawyers who are members of threat assessment teams, provide threat and violence assessment and management consultations, as well as expert witnesses in cases involving workplace violence, school violence, security negligence; or wrongful termination or disputed school disciplinary actions related to aggressive, threatening, or violent behavior.
