The book is supported by a CD-ROM containing extensive revision and exam practice questions, background information and reference material.

Negotiating for Success: Essential Strategies and Skills George J. Siedel 2014-10-04 We all negotiate on a daily basis. We negotiate with our spouses, children, parents, and friends. We negotiate when we rent an apartment, buy a car, purchase a house, and apply for a job. Your ability to negotiate might even be the most important factor in your career advancement. Negotiation is also the key to business success. No organization can survive without contracts that produce profits. At a strategic level, businesses are concerned with value creation and achieving competitive advantage. But the success of high-level business strategies depends on contracts made with suppliers, customers, and other stakeholders. Contracting capability—the ability to negotiate and perform successful contracts—is the most important function in any organization. This book is designed to help you achieve success in your personal negotiations and in your business transactions. The book is unique in two ways. First, the book not only covers negotiation concepts, but also provides practical actions you can take in future negotiations. This includes a Negotiation Planning Checklist and a completed example of the checklist for your use in future negotiations. The book also includes (1) a tool you can use to assess your negotiation style; (2) examples of "decision trees," which are useful in calculating your alternatives if your negotiation is unsuccessful; (3) a three-part strategy for increasing your power during negotiations; (4) a practical plan for analyzing your negotiations based on your reservation price, stretch goal, most-likely target, and zone of potential agreement; (5) clear guidelines on ethical standards that apply to negotiations; (6) factors to consider when deciding whether you should negotiate through an agent; (7) psychological tools you can use in negotiations—and traps to avoid when the other side uses them; (8) key elements of contract law that arise during negotiations; and (9) a checklist of factors to use when you evaluate your performance as a negotiator. Second, the book is unique in its holistic approach to the negotiation process. Other books often focus narrowly either on negotiation or on contract law.

Furthermore, the books on negotiation tend to focus on what happens at the bargaining table without addressing the performance of an agreement. These books make the mistaken assumption that success is determined by evaluating the negotiation rather than evaluating performance of the agreement. Similarly, the books on contract law tend to focus on the legal requirements for a contract to be valid, thus giving short shrift to the negotiation process that precedes the contract and to the performance that follows. In the real world, the contracting process is not divided into independent phases. What happens during a negotiation has a profound impact on the contract and on the performance that follows. The contract's legal content should reflect the realities of what happened at the bargaining table and the performance that is to follow. This book, in contrast to others, covers the entire negotiation process in chronological order beginning with your decision to negotiate and continuing through the evaluation of your performance as a negotiator. A business executive in one of the negotiation seminars the author teaches as a University of Michigan professor summarized negotiation as follows: "Life is negotiation!" No one ever stated it better. As a mother with young children and as a company leader, the executive realized that negotiations are pervasive in our personal and business lives. With its emphasis on practical action, and with its chronological, holistic approach, this book provides a roadmap you can use when negotiating through your life as a negotiator.

An Introduction to African Philosophy Sam O. Imbo 1998-03-26 Organized topically rather than historically, this book provides an excellent introduction to the subject of African Philosophy. Samuel Oluoch Imbo synthesizes the ideas of key African philosophers into an accessible narrative. The author focuses on five central questions: What are the definitions of African philosophy? Is ethno-philosophy really philosophy? What are the dangers of an African philosophy that claims to be 'unique'? Can African philosophy be done in foreign languages such as English and French? Are there useful ways to make connections between African philosophy, African American philosophy, and women's studies? By making cross-disciplinary and transnational connections, Imbo stakes out an important place for African philosophy. Imbo's book is an invaluable introduction to this dynamic and growing area of study.

Management and Cost Accounting Colin Drury 1997 The market-leading European text on management accounting and comprehensive authority on all aspects of the subject has been streamlined and substantially redesigned in its 6th edition to make it even more suitable for the needs of today's student. The aim of the new edition is to explain the principles involved in the design and evaluation of management and cost accounting information systems. The emphasis in the book is on management accounting systems that will be used for internal decision-making purposes within an organisation, however, cost accounting systems for external reporting are also comprehensively covered. It has been brought up to date with the latest developments in the subject. Having been made stronger pedagogically with the addition of the answers to the questions and more real-world mini cases, the text brings home the relevance of the subject matter to the real world of business.

Private Secondary Schools Peterson's 2011-05-01 Peterson's Private Secondary Schools is everything parents need to find the right private secondary school for their child. This valuable resource allows students and parents to compare and select from more than 1,500 schools in the U.S. and Canada, and around the world. Schools featured include independent day schools, special needs schools, and boarding schools (including junior boarding schools for middle-school students). Helpful information listed for each of these schools include: school's area of specialization, setting, affiliation, accreditation, tuition, financial aid, student body, faculty, academic programs, social life, admission information, contacts, and more. Also includes helpful articles on the merits of private education, planning a successful school search, searching for private schools online, finding the perfect match, paying for a private education, tips for taking the necessary standardized tests, semester programs and understanding the private schools' admission application form and process.
