Voice Lessons Rob Paulsen 2019-10-08 Rob Paulsen is one of Hollywood's busiest, most talented, and most passionate performers. If you don't know him by name, you will know him by the many characters he has brought to life: Pinky from Pinky and the Brain, Yakko from Animaniacs, the tough but loveable Raphael from the original animated Teenage Mutant Ninja Turtles, and many more. So you can imagine how terrifying it must have been when Rob was diagnosed with throat cancer, putting his entire livelihood in jeopardy and threatening to rob the world of all his loveable characters that filled our youths and adulthoods with humor and delight. Voice Lessons tells the heartwarming and life-affirming story of Rob's experience with an aggressive cancer treatment and recovery regimen, which luckily led to a full recovery. Rob quickly returned to doing what he loves most, but with a much deeper appreciation of what he came so close to losing. His new lease on life inspired him to rededicate himself to his fans, particularly the new friends he made along the way: hundreds of sick children and their families. Rob said it best himself: "I can not only continue to make a living, but make a difference, and I can't wait to use that on the biggest scale that I can."

100 Days of Sunlight Abbie Emmons 2019-08-07 When 16-year-old poetry blogger Tessa Dickinson is involved in a car accident and loses her eyesight for 100 days, she feels like her whole world has been turned upside-down. Terrified that her vision might never return, Tessa feels like she has nothing left to be happy about. But when her grandparents place an ad in the local newspaper looking for a typist to help Tessa continue writing and blogging, an unlikely answer knocks at their door: Weston Ludovico, a boy her age with bright eyes, an optimistic smile...and no legs. Knowing how angry and afraid Tessa is feeling, Weston thinks he can help her. But he has one condition -- no one can tell Tessa about his disability. And because she can't see him, she treats him with contempt: screaming at him to get out of her house and never come back. But for Weston, it's the most amazing feeling: to be treated like a normal person, not just a sob story. So he comes back. Again and again and again. Tessa spurns Weston's "obnoxious optimism", convinced that he has no idea what she's going through. But Weston knows exactly how she feels and reaches into her darkness to show her that there is more than one way to experience the world. As Tessa grows closer to Weston, she finds it harder and harder to imagine life without him -- and Weston can't imagine life without her. But he still hasn't told her the truth, and when Tessa's sight returns he'll have to make the hardest decision of his life: vanish from Tessa's world...or overcome his fear of being seen. 100 Days of Sunlight is a poignant and heartfelt novel by author Abbie Emmons. If you like sweet contemporary romance and strong family themes then you'll love this touching story of hope, healing, and getting back up when life knocks you down.

Destabilizing the Hollywood Musical K. Kessler 2010-10-13 A critical survey of Hollywood film musicals from the 1960s to the present. This book examines how, in the post-studio system era, cultural, industrial and stylistic circumstances transformed this once happy-go-lucky genre into one both fluid and cynical enough to embrace the likes of Rocky Horror and pave the way for Cannibal! and Moulin Rouge!.

Nobody Likes a Goblin Ben Hatke 2016-06-07 Goblin, a cheerful little homebody, lives in a cosy, rat-infested dungeon, with his only friend, Skeleton. Every day, Goblin and Skeleton play with the treasure in their dungeon. But one day, a gang of "heroic" adventurers bursts in. These marauders trash the place, steal all the treasure, and make off with Skeleton—leaving Goblin all alone! It's up to Goblin to save the day. But first he's going to have to leave the dungeon and find out how the rest of the world feels about goblins.

Forensic Detective Robert Mann 2007-01-30 Death. It's not only inevitable and frightening, it's intriguing and fascinating—especially today, when science continues to make ever more stunning advances in the investigation of the oldest and darkest of mysteries. To discover the how and why of death, unearth its roots, and expose the mechanics of its grim handiwork is, at least in some sense, to master it. And in the process, if a criminal can be caught or closure found, so much the better. Enter Robert Mann, forensic anthropologist, deputy scientific director of the U.S. government's Central Identification Laboratory, and, some might say, the Sherlock Holmes of death detectives. When the dead reveal some of their most sensational, macabre, and poignant tales, more often than not it's Mann who's been listening. Now, in this remarkable casebook, he offers an in-depth behind-the-scenes portrait of his sometimes gruesome, frequently dangerous, and always compelling profession. In cases around the world, Mann has been called upon to unmask killers with nothing but the bones of their victims to guide him, draw out clues that restore identities to the nameless dead, recover remains thought to be hopelessly lost, and piece together the events that can unlock the truth behind the most baffling deaths. The infamous 9/11 terror attacks, which killed thousands; the unplanned killing that inaugurated serial murderer Jeffrey Dahmer's grisly spree; mysterious military fatalities from World War II to the Cold War to Vietnam, including the amazing case of the Vietnam War's Unknown Soldier—all the fascinating stories are here, along with photos from the author's personal files. Mystery hangings, mass graves, errant body parts, actual skeletons in closets, and a host of homicides steeped in bizarre clues and buried secrets—they're all in a day's work for one dedicated detective whose job begins when a life ends.

The Real History of the End of the World Sharan Newman 2010-04-06 From the author of The Real History Behind the Templars--the origins and stories behind end-of-the-world predictions throughout history, from Revelations to 2012. In entertaining and sharp prose, historian Sharan Newman explores theories of world destruction from ancient times up to the present day--theories which reveal as much about human nature as they do about the predominant historical, scientific, and religious beliefs of the time. Readers will find answers to the following end-of-times questions: ?Did the Mayans really say the world will end in December 2012? ?How have the signs in the New Testament Book of Revelations been interpreted over the years? ?How did ancient Egyptians, Norse, and Chinese think the world would end? ?When did Nostradamus predict that the last days would come? ?Does the I Ching reference 2012? ?Why didn't the world end in Y2K? ?Are meteors, global warming, super-volcanoes, and the threat of nuclear war signs that the end is near?

The Book of General Ignorance John Mitchinson 2007-08-07 NEW YORK TIMES BESTSELLER • Misconceptions, misunderstandings, and flawed facts finally get the heave-ho in this humorous, downright humiliating book of reeducation

based on the phenomenal British bestseller. Challenging what most of us assume to be verifiable truths in areas like history, literature, science, nature, and more, *The Book of General Ignorance* is a witty "gotcha" compendium of how little we actually know about anything. It'll have you scratching your head wondering why we even bother to go to school. Think Magellan was the first man to circumnavigate the globe, baseball was invented in America, Henry VIII had six wives, Mount Everest is the tallest mountain? Wrong, wrong, wrong, and wrong again. You'll be surprised at how much you don't know! Check out *The Book of General Ignorance* for more fun entries and complete answers to the following: How long can a chicken live without its head? About two years. What do chameleons do? They don't change color to match the background. Never have; never will. Complete myth. Utter fabrication. Total Lie. They change color as a result of different emotional states. How many legs does a centipede have? Not a hundred. How many toes has a two-toed sloth? It's either six or eight. Who was the first American president? Peyton Randolph. What were George Washington's false teeth made from? Mostly hippopotamus. What was James Bond's favorite drink? Not the vodka martini.

She shows you how to do it: create an act, perform it, make money with it, or apply it to everyday life. Discover: • The formulas for creating comedy material • How to find your own style • The three steps to putting your act together • Rehearsal do's and don'ts • What to do if you bomb • Ways to punch up your everyday life with humor

Columbia Pictures Bernard F. Dick 2021-10-19 Drawing on previously untapped archival materials including letters, interviews, and more, Bernard F. Dick traces the history of Columbia Pictures, from its beginnings as the CBC Film Sales Company, through the regimes of Harry Cohn and his successors, and ending with a vivid portrait of today's corporate Hollywood. The book offers unique perspectives on the careers of Rita Hayworth and Judy Holliday, a discussion of Columbia's unique brands of screwball comedy and film noir, and analyses of such classics as *The Awful Truth*, *Born Yesterday*, and *From Here to Eternity*. Following the author's highly readable studio chronicle are fourteen original essays by leading film scholars that follow Columbia's emergence from Poverty Row status to world class, and the stars, films, genres, writers, producers, and directors responsible for its transformation. A new essay on Quentin Tarantino's *Once Upon a Time...in Hollywood* rounds out the collection and brings this seminal studio history into the 21st century. Amply illustrated with film stills and photos of stars and studio heads, *Columbia Pictures* is the first book to integrate history with criticism of a single studio, and is ideal for film lovers and scholars alike.

Encyclopedia of Unaired Television Pilots, 1945-2018 Vincent Terrace 2018-10-25 "Terrace is arguably the most prolific developer of television reference material, with more than 30 books to his credit"—ARBA Covering the years 1945-2018, this alphabetical listing provides details about 2,923 unaired television series pilots, including those that never went into production, and those that became series but with a different cast, such as *The Green Hornet*, *The Middle* and *Superman*. Rarities include proposed shows starring Bela Lugosi, Doris Day, Humphrey Bogart, Barbara Stanwyck, Orson Welles, Claudette Colbert and Mae West, along with such casting curiosities as Mona Freeman, not Gale Storm, as Margie in *My Little Margie*, and John Larkin as Perry Mason long before Raymond Burr played the role.

Real Ultimate Power: The Official Ninja Book Robert Hamburger 2015-03-20 Dear Stupid Idiots, A lot of you have been saying that I don't know anything about REAL ninjas. But that's a bunch of bull crap! You dummies don't know anything. And maybe YOU should get a life. I bet a lot of you have never even seen a girl naked! You idiots believe that ninjas had some "code of honor." Yeah right! If by "code of honor," you mean "code to flip out and go nuts for absolutely no reason at all even if it means that people might think you are totally insane or sweet," then you are right. But if you mean a "code to be nice and speak nicely while sharing and not cutting off heads," then you're the biggest idiot ever!!!! So if you have any brains, you will shut up and get a life. So go shut up, you stupid idiot. No thank you, Robert Hamburger

Little Michigan Kathryn Houghton 2018-05-01 Michigan's small towns have great stories. Little Michigan presents 100 towns with populations under 600. From the state's long mining history to its Civil War heritage, each community is charming and unique. With full-color photographs, fun facts, and fascinating details about every locale, it's almost as if you're walking down Main Street, waving hello to folks who know all of their neighbors. Plus, these small towns have their share of surprises. Do you know which crime scene inspired the famous film *Anatomy of a Murder* or where you will find the infamous "Naughty Cow" statue—and how it got its nickname? The locations featured in this book range from quaint to historic, and they wonderfully represent the Great Lakes State. Little Michigan, written by lifelong resident Kathryn Houghton, is for anyone who grew up in a small town and for everyone who takes pride in being called a Michigander. They may be small towns, but they have huge character!

Tales of the San Francisco Cacophony Society John Law 2019-06-13 A template for pranksters, artists, adventurers and anyone interested in rampant creativity, for years to come. *Tales Of The San Francisco Cacophony Society* tells the history of the most influential underground cabal that you have never heard of. Rising from the ashes of the mysterious and legendary *Suicide Club*, *The Cacophony Society*, at its zenith, hosted chapters in over a dozen major cities, and influenced much of what was once called the underground. *Flash Mobs*, *Urban Exploration*, and *Culture Jamming* are a few of the pop culture trends that *Cacophony* helped kick off. *Chuck Palahniuk's Fight Club*, *Burning Man* and Internet social networking powerhouse *Laughing Squid* were informed and inspired by *Cacophony*. The *Burning Man Festival* actually began as a *Cacophony* event as did the annual, and now world-wide *SantaCon*. *Cacophony* events could range from something as simple as climbing the *Golden Gate Bridge* or having a discussion over drinks about a movie seen together, to something as elaborate as *The Atomic Café* -- an event involving a hundred bedraggled "nuclear holocaust survivors" mounting elaborate costumed rituals throughout the bowels of a massive abandoned tooth paste factory. Yes.... *Cacophony* was that strange. *Cacophony's* heyday was concurrent with the rise of the internet. The story of this group is of historical significance for this reason. Information about upcoming pranks, street theater and other events hosted by *Cacophony* was spread by paper flyers posted on telephone poles and left in coffee shops, by the Societies mailer "Rough Draft" and by word of mouth. Then, with the genesis of personal computing and social networking, the jokers, artists and troublemakers of *Cacophony* were among some of the first non-geeks to explore the power of this new and world changing way of communicating. *Burning Man*, *Urban Exploration*, *flash mobs* and the like were avenues of creativity with their roots in *Cacophony*, that spread like wildfire through the mechanism of these new communication technologies.

Dear Luke, We Need to Talk, Darth John Moe 2014-06-10 "Dear Luke, We Need to Talk, Darth is proof that a funny book on pop culture doesn't have to be snide and nasty. I loved everything about it." —Jim Gaffigan We all know how Darth Vader shared his big secret with Luke Skywalker, but what if he had delivered the news in a handwritten note instead? And what if someone found that letter, as well as all of the drafts that landed in the Dark Lord's trash can? In the riotously funny collection *Dear Luke, We Need to Talk. Darth*, John Moe finally reveals these lost notes alongside all the imagined letters, e-mails, text messages, and other correspondences your favorite pop culture icons never meant for you to see. From *The Walking Dead* to *The Wizard of Oz*, from Billy Joel to *Breaking Bad*, no reference escapes Moe's imaginative wit and keen sense of nostalgia. Read Captain James T. Kirk's lost log entries and Yelp reviews of *The Bates Motel* and *Cheers*. Peruse top secret British

intelligence files revealing the fates of Agents 001-006, or Don Draper's cocktail recipe cards. Learn all of Jay-Z's 99 problems, as well as the complete rules of Fight Club, and then discover an all-points bulletin concerning Bon Jovi, wanted dead or alive—and much more. Like a like a bonus track to a favorite CD or a deleted scene from a cult movie, Dear Luke, We Need to Talk Darth offer a fresh twist on the pop culture classics we thought we knew by heart. You already know part of their story. Now find out the rest.

Ask a Ninja Presents The Ninja Handbook Douglas Sarine 2008-09-09 DEADLY NINJA WISDOM FOR THE NON-NINJA Carefully consider the joy of your soft-headed ignorance before you begin to run, flip, and jump along the Ninja Path. After much debate and in a spirit of morbid amusement, the International Order of Ninjas has chosen to produce The Ninja Handbook, the first-ever secret ninja training guide specifically designed for the non-ninja. Most non-ninjas who handle these delicate, deadly pages will die—probably in an elaborately horrific and painful manner. But whether your journey lasts five seconds or five days or (rather inconceivably) five years, all those who bravely take up this text and follow the tenets and trials laid out within will die knowing they were as ninja as they possibly could've been. For the true of heart or the extremely lucky, this powerful and honorable manuscript contains such phenomenal ninja wisdom as: •How to create and name your very own lethal ninja clan •The proper weapon to use when fighting a vampire pumpkin •Why clowns and robots are so dangerous on the Internet •Easy-to-follow charts showing when to slice and when to stab •How to execute such ultradeadly kicks as the Driving Miss Daisy •Why pretty much every ninja movie ever made sucks •How to make a shoggoth explode using well-placed foliage •What the heck a shoggoth is and why you'll need to make it explode •Death Aide certification •And much more ninjafied enlightenment on every shuriken-sharp page! Remember: People do not take the Path, the Path takes people.

A Convenient Death Alana Goodman 2020-06-02 Who killed Jeffrey Epstein? Two journalists look for answers. A must-read for fans of the Netflix docuseries Filthy Rich. In A Convenient Death, investigative reporters Alana Goodman and Daniel Halper search for the truth of what really happened to Jeffrey Epstein. With access to Epstein's victims and lawyers, to doctors, Wall Street insiders and law enforcement officers, they reveal the dirty secrets and sinister ties that may have driven someone in Epstein's circle to take matters into their own hands. On the morning of August 10, 2019, Epstein, friend and financier to the rich and powerful, was found unresponsive in his prison cell in lower Manhattan, where he awaited his second trial for sexual predation and other crimes. He was rushed to a local hospital and one hour later pronounced dead by suicide. Across the world, a sinister web of powerful billionaires, celebrities, and politicians, including Bill and Hillary Clinton, had reason to sigh with relief at news of Epstein's death. Having flown on his private planes and visited his many homes—the sites of so many illicit activities—they had much to lose if their transgressions were ever exposed. And now, Epstein was silenced for good. But cracks in the official story soon emerged. And the questions kept coming: • Why did the surveillance cameras in front of Epstein's cell stop working that night? • Why was Epstein's cellmate transferred out and never replaced? • Why was a high-profile prisoner so suddenly taken off suicide watch and left unguarded for eight hours? Was Epstein murdered to protect the powerful people who feared what he might reveal? The American public deserves to know the truth. With this book, they can finally understand the facts and decide for themselves.

Ghosts Aliens Trey Hamburger 2008-11-04 Are you freaked out by the mere thought of a bird winking at you? Or do you panic when you hear an unexplained gurgling sound? Well, listen to this. On Saturday, March 8, at 7:12 p.m., Trey Hamburger heard a second hand account of a teleporting Hot Pocket and started wiggin' out bad. So he and his amigo Mike Stevens basically went into combat mode and ended up encountering some of the most seriously messed-up shit ever. And they're STILL FREAKED OUT ABOUT IT. Now, even though these guys aren't SCIENTISTS, it's pretty for sure that they might have extrapolated something HUGE, which will have the intellectual community going nuts for weeks. This is their story. Ghost/Aliens is probably the first time ever a regular person has investigated this sort of thing. So now the people of planet Earth will finally know the truth about all those levitating towels and dead grandpas popping up all over the place.

Intelligent Projects Using Python Santanu Pattanayak 2019-01-31 Implement machine learning and deep learning methodologies to build smart, cognitive AI projects using Python Key Features A go-to guide to help you master AI algorithms and concepts 8 real-world projects tackling different challenges in healthcare, e-commerce, and surveillance Use TensorFlow, Keras, and other Python libraries to implement smart AI applications Book Description This book will be a perfect companion if you want to build insightful projects from leading AI domains using Python. The book covers detailed implementation of projects from all the core disciplines of AI. We start by covering the basics of how to create smart systems using machine learning and deep learning techniques. You will assimilate various neural network architectures such as CNN, RNN, LSTM, to solve critical new world challenges. You will learn to train a model to detect diabetic retinopathy conditions in the human eye and create an intelligent system for performing a video-to-text translation. You will use the transfer learning technique in the healthcare domain and implement style transfer using GANs. Later you will learn to build AI-based recommendation systems, a mobile app for sentiment analysis and a powerful chatbot for carrying customer services. You will implement AI techniques in the cybersecurity domain to generate Captchas. Later you will train and build autonomous vehicles to self-drive using reinforcement learning. You will be using libraries from the Python ecosystem such as TensorFlow, Keras and more to bring the core aspects of machine learning, deep learning, and AI. By the end of this book, you will be skilled to build your own smart models for tackling any kind of AI problems without any hassle. What you will learn Build an intelligent machine translation system using seq-2-seq neural translation machines Create AI applications using GAN and deploy smart mobile apps using TensorFlow Translate videos into text using CNN and RNN Implement smart AI Chatbots, and integrate and extend them in several domains Create smart reinforcement, learning-based applications using Q-Learning Break and generate CAPTCHA using Deep Learning and Adversarial Learning Who this book is for This book is intended for data scientists, machine learning professionals, and deep learning practitioners who are ready to extend their knowledge and potential in AI. If you want to build real-life smart systems to play a crucial role in every complex domain, then this book is what you need. Knowledge of Python programming and a familiarity with basic machine learning and deep learning concepts are expected to help you get the most out of the book

Humble Pi Matt Parker 2019-03-07 We would all be better off if everyone saw mathematics as a practical ally. Sadly, most of us fear maths and seek to avoid it. This is because mathematics doesn't have good 'people skills' - it never hesitates to bluntly point out when we are wrong. But it is only trying to help! Mathematics is a friend which can fill the gaps in what our brains can do naturally. Luckily, even though we don't like sharing our own mistakes, we love to read about what happens when maths errors make the everyday go horribly wrong. Matt Parker explores and explains near misses and mishaps with planes, bridges, the internet and big data as a way of showing us not only how important maths is, but how we can use it to our advantage. This comedy of errors is a brilliantly told series of disaster stories with a happy ending.

Hilarity Ensues Tucker Max 2012-02-07 The New York Times bestselling author of *I Hope They Serve Beer in Hell* and *Assholes Finish First* delivers a new collection of thirty 100% true, 100% exclusive stories of comically perverse excess. Another installment in Tucker Max's series of stories about his drunken debauchery and ridiculous antics. What began as a simple sentence on an obscure website, "My name is Tucker Max, and I am an asshole," and developed into two infamously genre-defining books, *I Hope They Serve Beer in Hell* and *Assholes Finish First*, ends here. But as you should expect from Tucker by now, he is going out with a bang—literally and figuratively. In this book, you'll learn: * How to live and work in Cancun, while still enrolled in Law School * Why Halloween is really awesome * How to subtly torture a highstrung roommate until he explodes with furious anger over a misplaced condiment * What really happened when a dirty pageant girl tried to sue Tucker because he told the truth * Why you should never accept a homemade treat from a hippie with a van As we've come to learn from Tucker, assholes do finish first...but everything comes with a price.

Religious Imaging in Millennialist America Ashley Crawford 2018-09-19 Ashley Crawford investigates how such figures as Ben Marcus, Matthew Barney, and David Lynch—among other artists, novelists, and film directors—utilize religious themes and images via Christianity, Judaism, and Mormonism to form essentially mutated variations of mainstream belief systems. He seeks to determine what drives contemporary artists to deliver implicitly religious imagery within a 'secular' context. Particularly, how religious heritage and language, and the mutations within those, have impacted American culture to partake in an aesthetic of apocalypticism that underwrites it.

The Book of Iowa Films Marty Knepper 2014-08-04 This is the first comprehensive history of films made in or about Iowa. It reflects some twenty years of collecting, lecturing, and talking with some of Iowa's current generation of independent filmmakers. It covers the span from 1918 to 2013 and gives important background information on dozens of high profile films such as the STATE FAIR films of 1933 and 1945, THE BRIDGES OF MADISON COUNTY, FIELD OF DREAMS, and many others. It is designed as a companion for the State Historical Society's blockbuster "Hollywood in the Heartland" exhibition in Des Moines that is scheduled to run at least through 2016. The book has an interpretive essay covering the entire history as well as paragraph length descriptions of each film. A user-friendly feature is the Index of Films, which makes it easy to locate discussions of individual films. Marty Knepper is a featured commentator on video screens in the "Hollywood in the Heartland" exhibition.

A Wind Named Amnesia Hideyuki Kikuchi 2008 The Apocalypse didn't end with a BANG, but with a whimper. Silently, the 'amnesia wind' swept away all of mankind's knowledge. Thousands of years of human civilization vanished overnight as people forgot how to use the tools of modern civilization; who they were, how to speak - everything! Technology decayed as mankind was reduced to an extremely primitive level. Two years after the devastation, a young man explores a nation reduced to barbarism: America. Miraculously re-educated after the cataclysm, he is accompanied by a young woman - somehow spared the obliterating effects of the amnesia wind. Pursued by a relentless killing machine, they search for those responsible for stealing their memories.

Conspiracies Andy Thomas 2019-12-10 At any time in our history, you will find significant and seemingly indisputable events occurring, the kind that can change the course of our lives -- the assassination of President John F. Kennedy, the terrorist attacks of 9/11. Yet for every one of them, somebody, somewhere will loudly dispute the 'official' account, doubting that the truth has been told. In today's environment, with trust in authorities at an all-time low, conspiracy theories have found a new currency, and websites and social networking ensure they receive a wider and more rapid spread than ever before. But how do we separate truth from imagination? Was Princess Diana murdered, as many people think, despite all the official denials? Did NASA really go to the Moon, when anomalies in the photographic record suggest otherwise? Could 9/11 really have been set up by agencies within the USA itself? The Kindle edition includes an update on all the conspiracy theories that have emerged in the wake of the Coronavirus pandemic. The author opens the conspiracy casebook by examining the mindset of those who believe in conspiracies, and considers whether the dismissive attitude towards them has been fair. Part Two looks into history to establish that conspiracies do occur, credibility should therefore be given to belief in some of the alleged plots and cover-ups of today. This leads into a well-argued examination of some of the most popular conspiracies of our times, including theories over assassinations, UFO cover-ups, and widely voiced concerns over 9/11 and the 'New World Order'. Part Three draws the conclusion that while not all conspiracy theories can be proven, they do at least draw attention to paths not to take, and can be valuable in helping to create a better world where new trust and hope can be forged. Are we living in a world of control, of oppression, of habitual deception? Is this really how things are, or simply human nature massively distorted through a dark lens? The truth probably lies somewhere in the middle.

Encounter with Tiber Buzz Aldrin 2013-05-28 An Apollo 11 astronaut and the Nebula Award-nominated author of *Directive 51* present a novel that "conveys the wonder and promise of space" (*Publishers Weekly*). Born the year of the Moon landing, Chris Terence spends his life fighting to return humanity to that pinnacle. An engineering student with dreams of spaceflight, he finds upon graduation that the United States no longer has need for astronauts. Years of bureaucratic meddling have reduced the space program to a shell of itself, and it will take the greatest scientific find in history to send humanity skyward once more. After years battling budget hawks, Chris finally gets his chance to walk on the Moon. While there, he finds evidence of an ancient alien civilization, the Tiberians, who visited Earth's satellite eight thousand years before. Understanding what happened to those long-forgotten travelers will define the lives of Chris and his son, as they fight against all odds to unlock the secrets of the universe. "The collaboration of the first man to pilot a moon lander (Aldrin) with a major voice in contemporary science fiction (Barnes) has produced a fascinating chronicle of man's first encounter with alien intelligence" (*Booklist*).

QI: The Book of Animal Ignorance John Lloyd 2009-01-08 Join QI's expedition into the animal kingdom to encounter 100 of its most remarkable subjects. Marvel at the elephants that walk on tiptoe, pigs that shine in the dark, and the woodlouse that drinks through its bottom. Albatrosses can fly non-stop for ten years without touching the ground. Box jellyfish have twenty-four eyes. Geese mourn their dead. Koalas don't drink. Monkeys pay to look at porn. Lobsters live for a century. Mice sing while having sex. Spiders can fly.

The Amityville Horror Jay Anson 2019-12-03 "A fascinating and frightening book" (*Los Angeles Times*)—the bestselling true story about a house possessed by evil spirits, haunted by psychic phenomena almost too terrible to describe. In December 1975, the Lutz family moved into their new home on suburban Long Island. George and Kathleen Lutz knew that, one year earlier, Ronald DeFeo had murdered his parents, brothers, and sisters in the house, but the property—complete with boathouse and swimming pool—and the price had been too good to pass up. Twenty-eight days later, the entire Lutz family fled in terror. This is the spellbinding, shocking true story that gripped the nation about an American dream that turned into a nightmare beyond imagining—"this book will scare the hell out of you" (*Kansas City Star*).

Encyclopedia of Television Shows, 1925 through 2010, 2d ed. Vincent Terrace 2014-01-10 This fully updated and expanded edition covers over 10,200 programs, making it the most comprehensive documentation of television programs ever published. In addition to covering the standard network and cable entertainment genres, the book also covers programs generally not covered elsewhere in print (or even online), including Internet series, aired and unaired pilot films, erotic series, gay and lesbian series, risqué cartoons and experimental programs from 1925 through 1945.

Twelve Years a Slave Solomon Northup 2021-01-01 "Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." -an excerpt

Weird City Joshua Long 2010-05-01 Austin, Texas, at the beginning of the twenty-first century, is experiencing one of the most dynamic periods in its history. Wedged between homogenizing growth and a long tradition of rebellious nonconformity, many Austinites feel that they are in the midst of a battle for the city's soul. From this struggle, a movement has emerged as a form of resistance to the rapid urban transformation brought about in recent years: "Keep Austin Weird" originated in 2000 as a grassroots expression of place attachment and anti-commercialization. Its popularity has led to its use as a rallying cry for local business, as a rhetorical tool by city governance, and now as the unofficial civic motto for a city experiencing rapid growth and transformation. By using "Keep Austin Weird" as a central focus, Joshua Long explores the links between sense of place, consumption patterns, sustainable development, and urban politics in Austin. Research on this phenomenon considers the strong influence of the "Creative Class" thesis on Smart Growth strategies, gentrification, income inequality, and social polarization made popular by the works of Richard Florida. This study is highly applicable to several emerging "Creative Cities," but holds special significance for the city considered the greatest creative success story, Austin.
