Environment and Tourism Andrew Holden 2000 For many people, holidays are an increasingly central feature of contemporary western society. The tourism industry has expanded rapidly since 1950, but this book poses the significant question of consequent environmental impacts: are environments being benefited or damaged, by the tourist who visit them? A well-balanced introductory text, this topical book on the relationships between tourism, society and the environment, examines 'tourism' and 'environment' in detail, and gives a historical overview of the growth of the tourism industry. It discusses how the tourism industry markets physical and cultural environments to be consumed by the tourist, and the consequences of the tourism they then attract. It explores: \* how the economics of tourism can be adopted in a positive way to aid conservation \* whether the concept of sustainability can be applied to tourism \* provides a critique of the 'new' forms of tourism, that have developed in recent years. An extensive range of international case studies from both the developed and developing world are used to illustrate the theoretical ideas presented, and to aid the student, it includes end of chapter summaries, further reading guides and boxed vignettes focusing on contemporary environmental issues and debates.

A Beautiful Truth Colin McAdam 2013-03-07 Walt and Judy's happiness has been blighted by their childlessness; although their marriage seems blissful, Judy feels increasingly empty and Walt longs to make her happy again. So one day he brings home Looee - a baby chimpanzee. Looee, exuberant and demanding, immediately fills the gap in Walt and Judy's life, and they come to love him as their own son. Like any child, Looee is affectionate and quick to learn, generous and engaging. But he is also a deeply unpredictable animal, and one night their unique family life is changed forever. At the Girdish Institute, chimpanzees have been studied for decades to prove that they are political, altruistic, often angry but also capable of forgiveness. The chimps at the Institute travel a parallel path to Looee's; they experience friendship, loss and rivalry, just as he does. When these two paths meet, startling truths are revealed about all great apes, captive and free, beloved or abandoned. Told alternately from the perspective of humans and chimpanzees, A Beautiful Truth is a profound and gripping story about the things we hold sacred and the truths of nature we so often ignore.

Health and Wellness Tourism Melanie K. Smith 2009 Health and Wellness Tourism takes an innovative look at this rapidly growing sector of today's thriving tourism industry. This book examines the range of motivations that drive this diverse sector of tourists, the products that are being developed to meet their needs and the management implications of these developments. A wide range of international case studies illustrate the multiple aspects of the industry and new and emerging trends including spas, medical wellness, life-coaching, meditation, festivals, pilgrimage and yoga retreats. The authors also evaluate marketing and promotional strategies and assess operational and management issues in the context of health and wellness tourism. This text includes a number of features to reinforce theory for advanced students of hospitality, leisure and tourism and related disciplines.

*ASEAN 2030 ADBI 2016-03-08* This book investigates long-term development issues for members of the Association of Southeast Asian Nations (ASEAN). It finds that with the proper policy mix—including domestic structural reforms and bold initiatives for regional integration—ASEAN has the potential to reach by 2030 the average quality of life enjoyed today in advanced economies and to fulfill its aspirations to become a resilient, inclusive, competitive, and harmonious (RICH) region. Key challenges moving forward are to enhance macroeconomic and financial stability, support equitable growth, promote competitiveness and innovation, and protect the environment. Overcoming these challenges to build a truly borderless economic region implies eliminating remaining barriers to the flow of goods, services, and production factors; strengthening competitiveness and the institutional framework; and updating some governing principles. But ASEAN should not merely copy the European Union. It must maintain its flexibility and pragmatism without creating a bloated regional bureaucracy. The study's main message is that through closer integration, ASEAN can form a partnership for achieving shared prosperity in the region and around the globe.

*Counting the Cost of COVID-19 on the Global Tourism Industry Godwell Nhamo 2020-09-19* This book profiles preliminary findings on the impact of COVID-19 on the travel, tourism and hospitality sector. Starting with a narrative relating COVID-19 to the global development agendas, the book proceeds with a focus on global tourism value chains and linkages between COVID-19 and the Sustainable Development Goals (SDGs). Other perspectives addressed in separate chapters include impacts of COVID-19 on various industries within the global tourism value chain including aviation, airports, cruise ships, car rentals as well as ride and share car services, hotels, restaurants, sporting, pilgrimage and religious tourism, gaming and entertainment, and the stock market. The book also includes chapters on corporate, philanthropic and public donations, as well as tourism economic stimulus packages. It then concludes with a chapter focusing on building back a better tourism sector post-COVID-19 that strongly draws from the Sendai Framework on Disaster Risk Reduction (2015-2030) and the disaster cycle. To this end, this book is suitable as a read for several professionals in disciplines such as tourism and hospitality studies, economics, sustainable development, development studies, environmental sciences, geography, politics, planning and public health.

*Self-directed learning research and its impact on educational practice Elsa Mentz 2021-05-17* This scholarly book is the third volume in an NWU book series on self-directed learning and is devoted to self-directed learning research and its impact on educational practice. The importance of self-directed learning for learners in the 21st century to equip themselves with the necessary skills to take responsibility for their own learning for life cannot be over emphasised. The target audience does not only consist of scholars in the field of self-directed learning in Higher Education and the Schooling sector but includes all scholars in the field of teaching and learning in all education and training sectors. The book contributes to the discourse on creating dispositions towards self-directed learning among all learners and adds to the latest body of scholarship in terms of self-directed learning. Although from different perspectives, all chapters in the book are closely linked together around self-directed learning as a central theme, following on the work done in Volume 1 of this series (*Self-Directed Learning for the 21st Century: Implications for Higher Education*) to form a rich knowledge bank of work on self-directed learning.

*Tourism and Archaeological Heritage Management at Petra Douglas C. Comer 2011-12-07* In 1985, Petra was included on the list of World Heritage Sites. *Tourist Safety and Security 1997*

*Overtourism Claudio Milano 2019-06-07* This book examines the evolution of the phenomenon and explores the genesis of overtourism and the system dynamics underlining it. The 'overtourism' phenomenon is defined as the excessive growth of visitors leading to overcrowding and the consequential suffering of residents, due to temporary and often seasonal tourism peaks, that lead to permanent changes in lifestyles, amenities and well-being. Enormous tensions in overtourism affected destinations have driven the intensification of policy making and scholarly attention toward seeking antidotes to an issue that is considered paradoxical and problematic. Moving beyond the 'top 10 things you can do about overtourism', this book examines the evolution of the phenomenon and explores the genesis of overtourism as well as the system dynamics underpinning it. With a rigorous scientific approach, the book uses systems-thinking and contemporary paradigms around sustainable development, resilience planning and degrowth; while considering global economic, socio-political, environmental discourses. Researchers, analysts, policy makers and industry stakeholders working within tourism as well as those within the private sector, community groups, civil society groups and NGOs will find this book an essential source of information.

*Native Tours Erve Chambers 2019-06-20 Previous editions of Native Tours provided a much-needed overview and analysis of anthropology's contributions to tourism as an emerging field of study. Such a cultural perspective illuminated key ideas surrounding worldwide host-guest relations and informed discussions of political and economic influences and the impacts, both negative and positive, of tourism as one of the world's largest industries. Applying a characteristically uncluttered, authoritative writing style alongside an exceptional command of the relevant literature, Chambers updates, refines, and extends his earlier work. He retains a focus on the social, cultural, economic, and environmental consequences of tourism, and provides a framework for understanding tourism initiatives in their particular circumstances. Three detailed case studies originating in the American Southwest, the Tirolean Alps, and Belize illustrate the varied costs and benefits of tourism.*
