Computing and ICT in the Primary School Gary Beauchamp 2016-09-13 Now fully updated to reflect recent changes in the curriculum, *Computing and ICT in the Primary School* encourages teachers, and pupils, to realise the potential of a full range of ICT and computing resources. Tackling computing head on, this book enables trainee and experienced teachers to better understand what computing is and how to use ICT effectively in teaching and learning. It is not a 'how to' guide or a collection of lesson plans, but instead balances research-based theory with everyday experiences, challenging readers to understand teaching methods and how they translate into a range of suitable teaching and learning strategies using ICT. This book offers primary teachers the knowledge, skills and confidence to plan, teach and assess creatively to enhance learning across the whole curriculum. This second edition includes updates of all chapters and completely new chapters on: • mobile technologies • social media, and • modern foreign languages. Gary Beauchamp places theory and practice hand in hand, providing a uniquely relatable resource based on his own teaching practice, classroom experience and research. This text is crucial reading for both serving teachers and those in training on undergraduate and PGCE courses, Education Studies courses and MA (Ed) programmes.

[The RoutledgeFalmer Reader in Education Policy and Politics](#) Bob Lingard 2007-01-24 This Reader brings together selected papers from leading scholars to address the most significant recent development in educational policy and politics: the impact of globalisation. The papers discuss, document and analyse evidence of globalisation's effects on the new direction of education policies and practices, and in the production of globalised agendas for the redesign of state provision and the governance of education. The Reader is organised in two parts. The first part provides a selection of articles that interrogate globalisation and its effects from a variety of analytical perspectives, and explore what kind of politics are possible in the framing context of globalisation. The second part documents and discusses different types of engagement with politics and policy in a variety of settings and sectors, including numerous European and Pacific Rim policy contexts. This important collection underlines the need to approach globalisation, education policy and politics from numerous perspectives, and offers analytical, empirical and theoretical resources for the reframing of contemporary education politics. Students of educational policy and politics will find this Reader an invaluable resource for understanding, theorising and researching in these academic fields.

National Curriculum Assessment Richard A. Daugherty 1995 Daugherty (education, U. of Wales-Aberystwyth) chronicles the evolution of National Curriculum Assessment in England and Wales from the Task Group on Assessment and Testing through the early experience of implementation. He explains aspects of the policy such as Standard Assessment Tests, teacher assessment, league tables, and key stage 4, and comments on public and professional reactions to government policy decisions, concluding that the Dearing Review is too deeply flawed to be a secure base for the future. Life After Levels Sam Hunter 2016-08-09 This is the story of one school's successful journey to a 'life after levels'. Together, the Headteacher and staff at one successful school took on the challenge: Where do we begin? What is the best assessment system for our school and our children? How do we make the most of assessment opportunities in the classroom? How do we create an assessment

policy from scratch and implement it in the school? How do we evaluate it, re-shape it and talk about it to parents, the wider school community and our colleagues in primary education? Through exploring one school's story, this text supports teachers and schools in a time of uncertainty, confusion and choice to make the most of the new opportunity to assess children without the restrictions of levels. "The removal of Levels has given all professionals involved in education a unique opportunity to rediscover what we value in this key aspect of teaching and learning...and it is an opportunity that we must grab with both hands. I want this book to provide a time for reflection for teachers and school leaders to re-adjust their thinking on assessment and to get excited about it." - Sam Hunter -
