Shaq Talks Back Shaquille O'Neal 2014-07-01 It's rare to discover a candid sports autobiography-- even rare when the author is one of the most recognizable athletes in the world. But in Shaq Talks Back, Shaquille O'Neal for the first time talks frankly about his childhood, his life, his rivalries, and his career, culminating in a dramatic, behind-the-scenes account of the Los Angeles Lakers' drive to the NBA Championship. At seven feet one inch tall and 330 pounds, Shaq has always faced outsized expectations, even as a child when he towered over other kids. Shaq Talks Back is the story of how potential became reality-- how someone expected to be a champion finally learned to become one. Beginning with his memory of crying on the court after the Lakers defeated the Indiana Pacers, Shaq takes us back to his younger days in Newark and Jersey City, New Jersey, then to Georgia and finally to Germany, where he began to harness some of his height and strength. From there, he recounts the remarkable progress of his basketball career, changing from a big but inexperienced teenager to a dominant college and professional player. Shaq talks about: * Playing at Louisiana State University for the unpredictable coach Dale Brown * Signing the biggest rookie contract ever with the Orlando Magic-- and going to the NBA Finals for the first time * What happened next: dissention, disappointment, and his decision to leave for Los Angeles * The dysfunctional Lakers who were never able to win the big games * Dealing with egos as he finds the right chemistry with Kobe Bryant, Phil Jackson, and new additions to the team * Rivalries with Alonzo Mourning, Patrick Ewing, Hakeem Olajuwon, David Robinson, and others * The trouble with free throws... * "Bling-bling" and women: the larger-than-life world of NBA players off the court * Inside the Lakers' comeback from the brink against Portland and the drive to the NBA championship Funny, insightful, opinionated, and unexpectedly moving, Shaq Talks Back is the true voice of the NBA's best player.

Event Processing in Action Peter Niblett 2010-08-14 Unlike traditional information systems which work by issuing requests and waiting for responses, event-driven systems are designed to process events as they occur, allowing the system to observe, react dynamically, and issue personalized data depending on the recipient and situation. Event Processing in Action introduces the major concepts of event-driven architectures and shows how to use, design, and build event processing systems and applications. Written for working software architects and developers, the book looks at practical examples and provides an in-depth explanation of their architecture and implementation. Since patterns connect the events that occur in any

system, the book also presents common event-driven patterns and explains how to detect and implement them. Throughout the book, readers follow a comprehensive use case that incorporates all event processing programming styles in practice today. Purchase of the print book comes with an offer of a free PDF, ePub, and Kindle eBook from Manning. Also available is all code from the book.

Disciple IV Abingdon Press 2005-05 DISCIPLE IV UNDER THE TREE OF LIFE is the final study in the four-phase DISCIPLE program and is prepared for those who have completed BECOMING DISCIPLES THROUGH BIBLE STUDY. The study concentrates on the Writings (Old Testament books not in the Torah or the Prophets), the Gospel of John, and Revelation. Emphasis on the Psalms as Israel's hymnbook and prayer book leads natural to an emphasis on worship in the study. Present through the entire study is the sense of living toward completion - toward the climax of the message and the promise, extravagantly pictured in Revelation. The image of the tree and the color gold emphasize the prod and promise in the Scriptures for DISCIPLE IV: UNDER THE TREE OF LIFE. The word under in the title is meant to convey invitation, welcome, sheltering, security, and rest - home at last. Commitment and Time Involved 32 week study Three and one-half to four hours of independent study each week (40 minutes daily for leaders and 30 minutes daily for group members) in preparation for weekly group meetings. Attendance at weekly 2.5 hour meetings. DVD Set Four of the five videos in this set contain video segments of approximately ten minutes each that serve as the starting point for discussion in weekly study sessions. The fifth video is the unique component that guides an interactive worship experience of the book of Revelation. Under the Tree of Life Scriptures lend themselves to videos with spoken word, art, dance, music, and drama. Set decorations differs from segment to segment depending on the related Scripture and its time period. Set decoration for video segments related to the Writings generally has a Persian theme. Set decoration for the New Testament video segments emphasizes the simpler life of New Testament times.

Edible Seashore John Wright 2018-02-22 In the fifth of the River Cottage Handbook series, John Wright reveals the rich pickings to be had on the seashore - and the team at River Cottage explain how to cook them to perfection. For the forager, the seashore holds surprising culinary potential. In this authoritative, witty book John Wright takes us on a trip to the seaside. But before introducing us to the various species to be harvested, he touches on such practicalities as conservation and the ethics of foraging; safety from tides, rocks and food poisoning; the law and access to the shore, our right to fish, landing sizes and seasons; and equipment such as nets, pots and hooks. Next comes the nitty-gritty: all the main British seashore species that one might be tempted to eat. The conservation status, taste and texture, availability, seasonality, habitat, collecting technique and biology of each species is covered; there are also quite a few gratuitous but fascinating diversions. The species covered include crustacea (brown shrimp, common crab, lobster, prawn, shore crab, spider crab, squat lobster, velvet swimming crab); molluscs (clams, cockle, dog whelk, limpet, mussel, oyster, razor clam, winkle); mushrooms; plants (alexanders, babbington's orache, fennel, frosted orache, marsh samphire, perennial wall rocket, rock samphire, sea beet, sea buckthorn, sea holly, sea kale, sea purslane, sea rocket, spear-leaved orache, wild cabbage, wild thyme); and seaweed (carrageen, dulse, gut weed, laver, pepper dulse, sea lettuce, sugar kelp, kelp). Finally, there are thirty brilliant recipes. Introduced by Hugh Fearnley-Whittingstall, Edible Seashore is

destined to join the other handbooks in the series as an indispensable household reference.
