Oracle Databases on RAC Deployment Guide: VMware, Inc.

To support a virtual IP address, both nodes require an unused IP address that is compatible with the public network's subnet and subnet mask. For communications between instances running on the four nodes, a private network is required. This private network connects only the nodes in the cluster and cannot be accessed from outside the cluster.

The dependable building block for your small business - Dell

The dependable Dell EMC PowerEdge T40 server and Dell EMC support team will simplify your everyday small business challenges. • Choose a quality server engineered to overcome small business challenges. • Count on Dell EMC reliable support with a one-year standard next business day hardware warranty or select up to a 5 year standard warranty.

Oracle Databases on VMware Best Practices Guide

3.1 VMware Oracle Support Policy . The following are some of the key facts about Oracle Support: • Oracle RAC support is included for the RDBMS version 11.2.0.2 and later (Metalink 249212.1 Updated Nov 8, 2010). • Known issues – Oracle Support will accept customer support requests for Oracle products running on

Decision -/CMA.3 Glasgow Climate Pact - United Nations ...

Emphasizes the urgency of scaling up action and support, including finance, capacity-building and technology transfer, to enhance adaptive capacity, strengthen resilience and reduce vulnerability to climate change in line with the best available science, taking into account the priorities and needs of developing country Parties; 8.
