*The Pursuit of History* John Tosh 2015-02-11 This classic introduction to the study of history invites the reader to stand back and consider some of its most fundamental questions - what is the point of studying history? How do we know about the past? Does an objective historical truth exist and can we ever access it? In answering these central questions, John Tosh argues that, despite the impression of fragmentation created by postmodernism in recent years, history is a coherent discipline which still bears the imprint of its nineteenth-century origins. Consistently clear-sighted, he provides a lively and compelling guide to a complex and sometimes controversial subject, while making his readers vividly aware of just how far our historical knowledge is conditioned by the character of the sources and the methods of the historians who work on them. The sixth edition has been revised and updated with key new material including: - a brand new chapter on public history - sections on digitised sources and historical controversy - discussion of topics including transnational history and the nature of the archive - an expanded range of examples and case studies - a comprehensive companion website providing valuable supporting material, study questions and a bank of primary sources. Lucid and engaging, this edition retains all the user-friendly features that have helped to make this book a favourite with both students and lecturers, including marginal glosses, illustrations and suggestions for further reading. Along with its companion website, this is an essential guide to the theory and practice of history.

**World Civilizations** Peter N. Stearns 2007 Taureans, ever wondered what the Sun-signs tell you about love and life? This unique anthology of poems for love and life relates directly to your Sun-sign, Taurus. If you were born between the 21st of April and the 21st of May, you will relate to many of the themes identified with your sign's characteristics and personality traits. The poems in this collection have been chosen because they reflect a Taurean attitude to life. They appeal to the interests 'ruled' by your sign; the animals, flowers, trees, plants and places celebrated by the poets and associated with the sign of Taurus over three thousand years of traditional astrology. Some have been chosen simply because we believe you will enjoy them, and that they will awaken or re-awaken your love of poetry.

**World Civilizations** Peter N. Stearns 2007 With 83 additional outline and four-color maps, *World Civilizations: The Global Experience, Fifth Edition, Atlas Edition*, helps students with geography, one of the most difficult aspects of World history courses for many. The maps are accompanied by review questions that call on students to identify important geographical areas and think critically about the connection between geography and historical events. The maps are on perforated pages and are organized by chapter so that they can be assigned easily and collected. The primary goal of World

Civilizations is to present a truly global history—since the development of agriculture and herding to the present. Using a unique periodization, this book divides the main periods of human history according to changes in the nature and extent of global contacts. This global world history text emphasizes the major stages in the interactions among different peoples and societies, while also assessing the development of major societies. Presenting social and cultural as well as political and economic aspects, the book examines key civilizations in world history. Church History Study Guide, Pt. 3 Randal S. Chase 2012-05-31 Church History Study Guide, Pt. 3: Latter-Day Prophets Since 1844. This volume is the third of three on Church History and the Doctrine and Covenants. It covers Church history during the administration of all of its Prophet-Prophets since Joseph Smith. It begins with the succession of the Apostles after Joseph Smith's martyrdom, the building of the Nauvoo Temple, and the trek to the west of the Latter-day Saint pioneers. We follow them through Iowa, Winter Quarters, and on to Utah. We witness the colonization of the state of Deseret, while the rest of the country suffered from Civil War. Then we follow events through the administrations of all of the 19th-Century, 20th-Century, and 21st-Century prophets from John Taylor to Thomas S. Monson. We become familiar with the early lives, missions, marriages, and callings of each of these prophets, seeing how the Lord prepared them for the particular time that they led the Church. We finish with a look toward the future as we await the Second Coming of our Lord. The cover features a beautiful photograph of the Salt Lake Temple, taken at dusk during the Christmas season from the roof of the Joseph Smith Memorial Building.

The Origins and Course of the First World War 1905-1918 P Kenney 2020-11-26 This Study Guide is designed to cover the Section A of Paper 2 Historical Investigation: A1 the origins and course of the First World War, 1905-18, as part of the Pearson Edexcel International GCSE in History (4HI1). This is a period of history that deserves study. The First World War transformed the world in many ways. It changed societies; it brought down empires and brought about great advances industrialisation and technological advances. Warfare was also transferred with the introduction of tanks and aircraft in battle for the first time. The First World War was fought in Europe, the Middle East, Africa and also at sea. The conflict would not be formally ended until the Treaty of Versailles on the 29th June 1919. From the wreckage of the First World War a new Europe was formed. As a result of the First World War, the Empire of Austria- Hungary was dismantled, the Russian autocratic Tsar was overthrown and the Bolshevik Communists established the USSR. Germany lost land and was humiliated, sowing the seeds for the rise of Hitler and the Second World War. By the time the war ended on 11th November 1918 over 10 million soldiers had been killed and over 20 million were wounded. With the benefit of hindsight, it is easy to see how the First World War was inevitable. Over the preceding decades the Great Powers of Europe were all competing to carve up the rest of the world - and take as much of it for themselves as possible. The European Great Powers; Great Britain, France, Germany, Russia, Austria-Hungary and Italy all desired new territories to rule and exploit. With more than 20 topics covering the origins and course of the war, this study guide covers all aspects of the syllabus requirements, including the alliance system and international rivalry in the years 1905-14; the growth of tension in Europe, 1905-14; the deadlock on the Western Front; the war at sea and Gallipoli, and the defeat of Germany in 1918.
