My Search for Ramanujan Ken Ono 2016-04-20 "The son of a prominent Japanese mathematician who came to the United States after World War II, Ken Ono was raised on a diet of high expectations and little praise. Rebelling against his pressure-cooker of a life, Ken determined to drop out of high school to follow his own path. To obtain his father's approval, he invoked the biography of the famous Indian mathematical prodigy Srinivasa Ramanujan, whom his father revered, who had twice flunked out of college because of his single-minded devotion to mathematics. Ono describes his rocky path through college and graduate school, interweaving Ramanujan's story with his own and telling how at key moments, he was inspired by Ramanujan and guided by mentors who encouraged him to pursue his interest in exploring Ramanujan's mathematical legacy. Picking up where others left off, beginning with the great English mathematician G.H. Hardy, who brought Ramanujan to Cambridge in 1914, Ono has devoted his mathematical career to understanding how in his short life, Ramanujan was able to discover so many deep mathematical truths, which Ramanujan believed had been sent to him as visions from a Hindu goddess. And it was Ramanujan who was ultimately the source of reconciliation between Ono and his parents. Ono's search for Ramanujan ranges over three continents and crosses paths with mathematicians whose lives span the globe and the entire twentieth century and beyond. Along the way, Ken made many fascinating discoveries. The most important and surprising one of all was his own humanity."

Vera; Or, The Nihilists Oscar Wilde 101-01-01 Vera; Or, The Nihilists was the first play written by Oscar Wilde. It was also the first to be performed and premiered in 1883 in New York. Set in Russia, the play tells the story of Vera Sabouroff, a barmaid in her father's tavern, who starts working with the Nihilists, a gang of terrorists who are trying to kill the Tsar. After becoming the group's top assassin, she falls in love with one of the other members. However, this member is hiding his true identity and when the truth comes out, Vera ends up facing a terrible dilemma. Based loosely on the life of Russian socialist activist Vera Zasulich, the play was not a success when it was first written and was never performed in London - closing after only one week. Critics were divided with some saying it was 'the noblest contribution to its literature the stage has received in many years' -and others saying the play was 'long-drawn dramatic rot'.

Forni, America's civility expert has given some thought to how we can successfully think our way through a greatly distracting world and live a better life. In twelve short chapters, he gives readers a remedy for the Age of Distraction, an age fuelled by social networking overload, compulsive texting and an omnipresent stream of cellphone calls. He shows how to put aside time each day to improve: - Attention - Introspection - Self-control - Positive thinking - Proactive thinking - Decision making - Creative thinking - Problem solving Just as Forni did with civility, he puts the importance of good thinking front and center in a book as lucid and profound as his earlier works. 1-Dimensional Metal Oxide Nanostructures Zainovia Lockman 2018-12-07 1-D metal oxide nanostructures, especially those with semiconducting properties, have attracted much attention in recent years due to their potential and emerging applications, specifically in environment purification and energy devices. For these applications, there have been many efforts to grow 1-D nanostructures in the form of nanotubes, nanorods, and nanowires using processes that conserve energy, are cost effective, and can be scaled up for large-scale production. 1-Dimensional Metal Oxide Nanostructures gathers under one title the most recent development of oxide nanomaterials, especially those fabricated via oxidation process in the nanoscale field. Thermal and anodic oxidation processes are reviewed with an aim to offer an in-depth understanding of mechanisms of 1-D nanostructure formation, their characteristics, and limitations. Other more common methods are also discussed, including sol-gel, hydrothermal, and other templated methods. Important applications of 1-D nanostructures are then presented, focusing on oxides like zinc oxide, titanium oxide, zirconium oxide, copper oxide, and iron oxide. A chapter on carbon nanotubes hybrid with these oxides is also included as well as one on silicon oxide nanowires formation by local anodic oxidation process. Aimed at researchers, academics, and engineers working across the fields of nanotechnology, materials science, chemistry, physics, semiconductors, and environmental and biomedical engineering, this essential reference enables readers to grasp the main concepts of nanomaterials in 1-D: formation technique, characteristics, and uses. It also encourages practical innovations in nanotechnology, especially in curbing pressing global issues related to energy, environment, and security.

Ankur Palekar, a third year law student believes his life is quite sorted out, except that he does not want to become a lawyer, has a family history of lunacy and has actually fallen in love. Vyas, Ankur's room mate and best friend, has no such problems - only a girl friend who emerges from a grave yard of all places and who insists on visiting him in his boy's hostel. A Malayali friend, whose car never starts and vocal chords never stop, a college festival being organized without the college and an arranged marriage which is more deranged than arranged are some of the other highlights. Funny, pacey, yet it has it's moments, 'When a Lawyer falls in love....' Is the kind of book, that will make you laugh and cry, both for the same reasons!

Iqbal's Poetry Sir Muhammad Iqbal 1995

Daughter of the East: An Autobiography Benazir Bhutto 2014-06-05 Beautiful and charismatic, the daughter of one of Pakistan's most popular leaders -- Zulfikar Ali Bhutto, hanged by General Zia in 1979 -- Benazir Bhutto is not only the first woman to lead a post-colonial Muslim state, she achieved a status approaching that of a royal princess, only to be stripped of her power in another example of the bitter political in-fighting that has riven her country. From her upbringing in one of Pakistan's richest families, the shock of the contrast of her Harvard and Oxford education, and subsequent politicisation and arrest after her father's death, Bhutto's life has been full of drama. Her riveting autobiography, first published in 1988 and now updated to cover her own activities since then and how her country has changed since being thrust into the international limelight after 9/11, is an inspiring tale of strength, dedication and courage in the face of adversity.

Kamikaze Diaries Emiko Ohnuki-Tierney 2007-03-01 "We tried to live with 120 percent intensity, rather than waiting for death. We read and read, trying to understand why we had to die in our early twenties. We felt the clock ticking away towards our death, every sound of the clock shortening our lives." So wrote Irokawa Daikichi, one of the many kamikaze pilots, or tokkotai, who faced almost certain death in the futile military operations conducted by Japan at the end of World War II. This moving history presents diaries and correspondence left by members of the tokkotai and other Japanese student soldiers who perished during the war. Outside of Japan, these kamikaze pilots were considered unbridled fanatics and chauvinists who willingly sacrificed their lives for the emperor. But the writings explored here by Emiko Ohnuki-Tierney clearly and eloquently speak otherwise. A significant number of the kamikaze were university students who were drafted and forced to volunteer for this desperate military operation. Such young men were the intellectual elite of modern Japan: steeped in the classics and major works of philosophy, they took Descartes' "I think, therefore I am" as their motto. And in their diaries and correspondence,

as Ohnuki-Tierney shows, these student soldiers wrote long and often heartbreaking soliloquies in which they poured out their anguish and fear, expressed profound ambivalence toward the war, and articulated thoughtful opposition to their nation's imperialism. A salutary correction to the many caricatures of the kamikaze, this poignant work will be essential to anyone interested in the history of Japan and World War II.

In the Line of Fire* Pervez Musharraf 2008-09-04** It is almost unprecedented for a head of state to publish a memoir while still in office. But Pervez Musharraf is no ordinary head of state. As President of Pakistan since 1999, his is one of the most dangerous jobs in the world, and he continues to play a crucial role in the global war on terror. A one-time supporter of the Taliban, a general who fought in several wars, President Musharraf took a decisive turn against militant Islam in 2001. Since then he has survived two assassination attempts; rooted out militants in his own government; helped direct countless raids against al-Qaeda both in his cities and in the mountains; and tracked Osama bin Laden with technical and human intelligence. ***IN THE LINE OF FIRE is astonishingly revealing and honest about dozens of topics of intense interest to the world. Among its many revelations: exactly how Pakistani authorities tracked down and smashed three major al-Qaeda control centres in the mountains; how al-Qaeda's many-layered structure was revealed after the assassination attempts; Bin Laden's current position within the al-Qaeda hierarchy; what it has been like to deal with Bush and Blair; how Pakistan and India have avoided nuclear confrontation; and much more. The terrible earthquake of 2005, killing nearly 40,000 Pakistanis, is just one chapter in a life and career that has been filled with danger and drama. The worldwide launch of President Musharraf's memoir promises to be a sensation.

***The Weary Generations* Abdullah Hussein 2016-07-10** Published in 1963, Abdullah Hussein's *The Weary Generations* (Udaas Naslein) was an instant bestseller in Urdu. Now beyond its fortieth edition, it has never been out of print. Hussein leads you into a story of love and marriage between

two people from starkly different social backgrounds, which also mirrors the uneasy 'marriage' between the British and their empire - both ultimately ending in estrangement. Naim, the son of a peasant, marries Azra, the daughter of a rich landowner, and their union is doomed from the start. Fighting for the British during the First World War, he loses an arm. Invalided home, he becomes angered at the subjugation of his countrymen under the Raj and aligns himself with the opposition. His ideals are swept away after Independence in 1947 when he realizes that, as Muslims, his family is no longer safe in their home and that they must migrate to the newly created Pakistan.

"Who's Afraid of ISIS?" Daniel Bertrand Monk 2020-04-28 "Who's Afraid of ISIS?" eschews familiar debates about the status of ISIS as an existential threat to the West, with the aim of submitting those types of arguments to a reasoned examination of the political place of anxiety itself. This collection concerns itself with the doxologies that attend such arguments, or with that which, as Bourdieu wrote, "goes without saying becomes it comes without saying" and so become the unexamined points of departure for contentions about ISIS that may, for that very reason, hold entire life worlds together. This book was originally published as a special issue of Critical Studies on Security.
