The Psychopath Test Jon Ronson 2011-06-03 What if society wasn't fundamentally rational, but was motivated by insanity? This thought sets Jon Ronson on an utterly compelling adventure into the world of madness. Along the way, Jon meets psychopaths, those whose lives have been touched by madness and those whose job it is to diagnose it, including the influential psychologist who developed the Psychopath Test, from whom Jon learns the art of psychopath-spotting. A skill which seemingly reveals that madness could indeed be at the heart of everything . . . Combining Jon Ronson's trademark humour, charm and investigative incision, The Psychopath Test is both entertaining and honest, unearthing dangerous truths and asking serious questions about how we define normality in a world where we are increasingly judged by our maddest edges.

Enhancing Competency of Teachers Dr. Marcelino D. Catahan, PhD 2015-06-02 "Enhancing Competency of Teachers" is a fundamental teaching-and-learning guide. Its main goal is to learn and develop an enhanced value system (EVS) and practice it in everyday life. Filipinos are known worldwide for being friendly and hospitable. However, without limitations, these traits become the "roots of corruption" in all sectors of Philippine life. This book outlines the sequence of logical modules in teaching-and-learning enhancement programs (TLEP) in the school settings. It is designed for learners in all educational levels, to enhance competencies and effectiveness in human resource development and training. It contains concepts, principles, and strategies for effective teaching and learning. The "Ethico-Moral Theory in Learning" provides five sets of significant rules in learning ethicomoral values to become genuine professionals. Verily, the skill, method, and social competencies of a person are not enough. They must be supported by a quality EVS that will guide the

person to think, feel, and act-with strict reverence to the will of God. Many books contained different insights, theories, philosophies, principles, and concepts in teaching and learning that sometimes confused readers in understanding how to learn or teach productively. In contrast, this text is presented in a very simple and logical manner. It advocates for the need of educational change, using EVS as the “key.” It presents simple approach in designing, implementing, and managing TLEP in school settings. It covers elementary modules- i.e., Learning Process; Teaching Methods/Techniques/Strategies; Preparing Daily Lesson; Sequence of Instruction; Selection of Teaching Aids; Speech Techniques; Questioning Techniques; Learning Distractions; Evaluation Techniques, Review/Summary/Reinforcement. Verily, a high school graduate can become a very productive professional through reading this book seriously. Today, the main cause of poverty is “corruption.” Poverty creates hunger. Hunger results to crimes. Criminal acts are indicators of degraded ethicomoral values. To have “More Fun in the Philippines,” EVS is a must amongst Filipino people!
