The Renaissance Paul Johnson 2013-10-31 A fresh and vigorous appreciation of the intellectual liberation and artistic triumphs of the Italian Renaissance. The development of the first universities from the 12th century onwards, growing wealth and patronage in certain cities, and above all the invention of printing and cheap paper, provided essential conditions for the Renaissance. And it was in literature and scholarship that it began, in the rebirth of classical culture that loosened the Church's iron grip on visual art. Paul Johnson tells the story, in turn, of Renaissance literature, sculpture, building and painting. Despite the critical importance of inventions outside Italy - printing in Germany and oil painting in Holland - he locates the Renaissance firmly in Italy and in Florence above all, between 1400 and 1560. There are memorable sketches of the key figures - the frugal and shockingly original Donatello, the awesome Michelangelo, the delicacy of Giovanni Bellini. The final part of the book charts the spread and decline of the Renaissance, as the Catholic Church repositioned itself to counter the Reformation which the Renaissance had itself helped to produce.

Giants of Delft Robert D. Huerta 2003 "In a widely researched and deeply considered book, Huerta argues that Vermeer's use of the camera obscura and other instrumental adjuncts parallels van Leeuwenhoek's pursuit of the "optical way," and embodies a profound philosophical connection between these investigators. Analyzing Vermeer's work, Huerta shows that the artist's choices were the result of his personal response to contemporary scientific discoveries, and the work of men such as van Leeuwenhoek, Christiaan Huygens, and Galileo Galilei. Furthermore, Huerta compares Vermeer's program of informed observation to the methods used by van Leeuwenhoek and other scientists to accumulate and analyze instrument-mediated knowledge. This approach enabled Vermeer to confront the same issues as natural philosophers regarding the interpretation of unfamiliar images presented by instrumental systems."--BOOK JACKET.

Poems and Plays William Shakespeare 1821

Renaissance Gothic Ethan Matt Kavaler 2012-01-01 This compelling book offers a new paradigm for the periodization of the arts, one that counters a prevailing Italianate bias among historians of northern Europe of this era. The years after 1500 brought the construction of several iconic Late Gothic monuments, including the transept facades of Beauvais cathedral in northern France, much of King's College in Cambridge, England, and the parish church at Annaberg in Saxony. Most designers and patrons preferred this elite Gothic style, which was considered fashionable and highly refined, to alternative Italianate styles. Ethan Matt Kavaler connects Gothic architecture to related developments in painting and other media, and considers the consequences of the breakdown of the Gothic system in the early 16th century. Late Gothic architecture is recognized for its sensuous and abundant ornament. Its visually rich surfaces signify wealth and magnificence, and its flamboyant geometric designs portray a system of perfect and essential forms that convey spiritual authority, while often serving as signs of personal or corporate identity. Renaissance Gothic presents a groundbreaking and detailed study of the Gothic architecture of the late 15th and 16th centuries across Europe.

Many Pious Women Harry Fox 2011-10-27 This work is of importance to anyone with an interest in whether women, especially Jewish Ashkenazic women, had a Renaissance. Many Pious Women is an annotated translation with extensive introductory essays of a unique 16th-century manuscript from Italy in Western Yiddish. It details the participation in the Querelle des Femmes and Power of Women topos as expressed in this hagiographic work on the lives of biblical women including the apocryphal Judith. Women everywhere, students of gender studies, Yiddishists and linguists will welcome this work now available for the first time in the original Yiddish text with an English translation.

Frans Floris (1519/20–70): Imagining a Northern Renaissance Edward H. Wouk 2018-02-13 Frans Floris de Vriendt was among the most celebrated Netherlandish artists of the sixteenth-century, more renowned in his day than Bruegel the Elder. This book relates Floris' s hybridizing art to the social, religious, and political crises reshaping his society.

The Renaissance Nude Thomas Kren 2018-11-20 A gloriously illustrated examination of the origins and development of the nude as an artistic subject in Renaissance Europe Reflecting an era when Europe looked to both the classical past and a global future, this volume explores the emergence and acceptance of the nude as an artistic subject. It engages with the numerous and complex connotations of the human body in more than 250 artworks by the greatest masters of the Renaissance. Paintings, sculptures, prints, drawings, illuminated manuscripts, and book illustrations reveal private, sometimes shocking, preoccupations as well as surprising public beliefs—the Age of Humanism from an entirely new perspective. This book presents works by Albrecht Dürer, Lucas Cranach, and Martin Schongauer in the north and Donatello, Raphael, and Giorgione in the south; it also introduces names that deserve to be known better. A publication this rich in scholarship could only be produced by a variety of expert scholars; the sixteen contributors are preeminent in their fields and wide-ranging in their knowledge and curiosity. The structure of the volume—essays alternating with shorter texts on individual artworks—permits studies both broad and granular. From the religious to the magical and the poetic to the erotic, encompassing male and female, infancy, youth, and old age, The Renaissance Nude examines in a profound way what it is to be human.

Nile and Grand Ethiopian Renaissance Dam Assefa M. Melesse 2021-08-31 This book is a contribution by the presenters of the 2020 International Conference on the Nile and Grand Ethiopian Renaissance Dam (GERD). The Nile basin is facing unprecedented level of water right challenges after the construction of GERD has begun. Ethiopia, Egypt and Sudan have struggled to narrow their differences on filling and operation of the GERD. The need for science and data-based discussion for a lasting solution is crucial. Historical perspectives, water rights, agreements, failed negotiations, and other topics related to the Nile is covered in this book. The book covers Nile water claims past and present, international transboundary basin cooperation and water sharing, Nile water supply and demand management, Blue Nile/Abbay and Grand Ethiopian Renaissance Dam, land and water degradation and watershed management, emerging threats of the Lakes Region in the Nile Basin, and hydrologic variation and monitoring. This book is beneficial for students, researchers, sociologists, engineers, policy makers, lawyers, water resources and environmental managers and for the people and governments of the Nile Basin.
