The Gospel after Christendom Ryan K. Bolger 2012-11-01 Emerging and missional church movements are an increasingly global phenomenon; they exist as holistic communities that defy dualistic Western forms of church. Until now, many of the voices from these movements have gone unheard. In this volume, Ryan Bolger assembles some of the most innovative church leaders from around the world to share their candid insider stories about how God is transforming their communities in an entirely new era for the church. Bolger's new book continues the themes that he and Eddie Gibbs established formally in their critically acclaimed *Emerging Churches* and situates new church movements within this rubric. It explores what's happening now in innovative church movements in continental Europe, Asia, and Latin American and in African American hip-hop cultures. Featuring an international cast of contributors, the book explores the changes occurring both in emerging cultures and in emerging and missional churches across the globe today.

Religion in Museums Gretchen Buggeln 2017-02-23 Bringing together scholars and practitioners from North America, Europe, Russia, and Australia, this pioneering volume provides a global survey of how museums address religion and charts a course for future research and interpretation. Contributors

from a variety of disciplines and institutions explore the work of museums from many perspectives, including cultural studies, religious studies, and visual and material culture. Most museums throughout the world - whether art, archaeology, anthropology or history museums - include religious objects, and an increasing number are beginning to address religion as a major category of human identity. With rising museum attendance and the increasingly complex role of religion in social and geopolitical realities, this work of stewardship and interpretation is urgent and important. Religion in Museums is divided into six sections: museum buildings, reception, objects, collecting and research, interpretation of objects and exhibitions, and the representation of religion in different types of museums. Topics covered include repatriation, conservation, architectural design, exhibition, heritage, missionary collections, curation, collections and display, and the visitor's experience. Case studies provide comprehensive coverage and range from museums devoted specifically to the diversity of religious traditions, such as the State Museum of the History of Religion in St Petersburg, to exhibitions centered on religion at secular museums, such as Hajj: Journey to the Heart of Islam, at the British Museum.

From Age to Age Edward Foley 2016-03-24 2009 Catholic Press Association Award Winner! From age to age you gather a people to yourself, so that from east to west a perfect offering may be made to the glory of your name." Eucharist is the fullest expression of our life with God, a life we share with Christians throughout the ages. It is also a sensory experience, engaging us in the sights and sounds, tastes and touch of the worship. Edward Foley's revised and expanded From Age to Age draws readers into that sensory experience. He traces the development of Christian Eucharist from its Jewish roots to our own time. In addition to exploring the architecture, music, books, and vessels that contributed to each period's liturgical expressions, this edition introduces readers to the theology of each age as well as the historical and cultural contexts that shaped the Eucharist. Richly illustrated with numerous images and quotations from period texts, this book is a feast for the mind and eye. Through many examples of the visual and auditory symbols that are central to Eucharist, readers will discover how Christian worship is embodied worship that from age to age gives glory to God and sanctifies people.

Letters to a Missing Woman Maree Aldridge 2019 "It started out as an idea about exchanging letters between two characters, the missing and the seeker. It was through images, creating with my hands, journaling, writing poetry and many letters that had become critical ways to carry out my own search for my missing woman. It was to those resources that I turned looking for images of transformation, the metaphors, the howling questions, the discoveries, and the hope. I wanted to create a soulful and intimate conversation. Hence the story acquired its name and its contents were drawn from my own private collection of creative inquiry"--Introduction: the story behind the story.

Voicing God's Psalms Calvin Seerveld 2005-01-21 "The accompanying CD features oral readings by Seerveld ... interspersed with select versification melodies played by solo recorder or saxophone."--Page 4 of cover.

Brain-Based Worship Paula Champion-Jones 2014-10-07 Historically, it has

been believed that Christian formation occurs primarily in the context of worship. Because both traditional and contemporary worship services are routinely structured around the skills of persuasive rhetoric and logic, most worship services effectively ignore the impact of experiential, embodied knowledge. Recent research in neuroscience has proven that humans are sensory-motor-emotional-thinking beings who learn best when body, brain, and emotions are simultaneously engaged. A fresh paradigm for teaching, brain-based learning, is proving to result in learning that is more memorable, more likely to result in long-term change in the behavior of the learner, and more likely to spur the learner to investigate the subject further. The Church needs to employ brain-based teaching methods in order to more effectively transmit the Gospel.

'Tikkun Olam' -To Mend the World Jason Goroncy 2013-12-04 "Tikkun Olam"--To Mend the World is premised on the conviction that artists and theologians have things to learn from one another, things about the complex interrelationality of life and about a coherence of things given and sustained by God. The ten essays compiled in this volume seek to attend to the lives, burdens, and hopes that characterize human life in a world broken but unforgotten, in travail but moving towards the freedom promised by a faithful Creator. They reflect on whether the world--wounded as it is by war, by hatred, by exploitation, by neglect, by reason, and by human imagination itself--can be healed. Can there be repair? And can art and theology tell the truth of the world's woundedness and still speak of its hope?

The Museum's Borders Simon Knell 2020-10-08 *The Museum's Borders* demonstrates that museum practices are deeply entangled in border making, patrol, mitigation and erasure, and that the border lens offers a new tool for deconstructing and reconfiguring such practices. Arguing that the museum is a critical institution for the operation of knowledge-based democracies, Knell investigates how they have been used by scientists, art historians and historians to construct our bordered world. Examining the role of museums in the Windrush scandal in Britain, the exclusion of Black artists in America, ideological and propaganda discourses in Europe and China, and the remembering of contested pasts in the Balkans, Knell argues for the importance of museums in countering unethical, nationalistic, post-fact political discourse. Using the principles of Knell's 'Contemporary

Museology', *The Museum's Borders* considers the significance of the museum for societies that wish to know and remember in ways that empower citizens and build cohesive societies. The book will be of great interest to students and academics engaged in the study of museums and heritage, art history, science studies, cultural studies, anthropology, memory studies and history. It is required reading for museum professionals seeking to adopt non-discriminatory practices.

Sacred Pathways Gary Thomas 2020-09-08 *Sacred Pathways* reveals nine distinct spiritual temperaments--and their strengths, weaknesses, and tendencies--to help you improve your spiritual life and deepen your personal walk with God. It's time to strip away the frustration of a one-size-fits-all spirituality and discover a path of worship that frees you to be you. In this updated and expanded edition of *Sacred Pathways*, Gary Thomas details nine spiritual temperaments and--like the Enneagram and other tools do with personality--encourages you to investigate the ways you most naturally express yourself in your relationship with God. He encourages you to dig into the traits, strengths, and pitfalls in your devotional approach so you can eliminate the barriers that keep you locked into rigid methods of worship and praise. Plus, as you begin to identify and understand your own temperament, you'll soon learn about the temperaments that aren't necessarily "you" but that may help you understand the spiritual tendencies of friends, family, and others around you. Introducing Evangelical Ecotheology Daniel L. Brunner 2014-10-14 Today's church finds itself in a new world, one in which climate change and ecological degradation are front-page news. In the eyes of many, the evangelical community has been slow to take up a call to creation care. How do Christians address this issue in a faithful way? This evangelically

centered but ecumenically informed introduction to ecological theology (ecothology) explores the global dimensions of creation care, calling Christians to meet contemporary ecological challenges with courage and hope. The book provides a biblical, theological, ecological, and historical rationale for earthcare as well as specific practices to engage both individuals and churches. Drawing from a variety of Christian traditions, the book promotes a spirit of hospitality, civility, honesty, and partnership. It includes a foreword by Bill McKibben and an afterword by Matthew Sleeth.

Ecclesianarchy John Williams 2020-09-30 Strategic thinking about ministry and mission has tended to focus on the challenges of communication and presentation. Less attention has been paid to the effects that this thinking has on ministry. There is an unacknowledged dilemma for churches insofar as they are caught between the challenge to re-shape ministry in response to cultural change and the belief that there are certain God-given, immutable foundations for ministerial order that must be retained. Arguing that what is needed is a provisional approach to ministry which recognises that all forms of ministry are, and always have been a response to social and cultural context, this book brings theological and practical insight to bear on the question of ministry's provisionality. In the end, it asks, is the only way through this dilemma a kind of Ecclesianarchy?

Curating Immateriality Joasia Krysa 2006 The site of curatorial production has been expanded to include the space of the Internet and the focus of curatorial attention has been extended from the object to dynamic network systems. Part of the 'DATA Browser' series, this book explores the role of the curator in the face of these changes

Curating Worship Jonny Baker 2012-04-10 Curation is a term usually used in the art world for the role of imagining and overseeing an exhibition or art experience. However the word is now being adopted by people in alternative worship, as it affords a very different and inventive way of thinking about how to lead a service or praise event. Rather than simply presiding over liturgy or fronting a band, curation involves negotiating between institutions and artists and making do with what is to hand to create something brilliant. The hope is that moments of epiphany will be experienced as God is invited to be and breathe in the space, and people make connections with their own lives and stories. *Curating Worship* is in two parts. The first considers the kind of thinking, skills and disciplines involved in good curation. The second consists of in depth interviews, which tease out from people who have curated amazing worship experiences around the world, the ideas and theories behind their approaches and the practical processes involved.

The Dangerous Act of Worship Mark Labberton 2012-10-31 Shows readers how to move beyond safe worship to authentic worship that pursues justice and seeks righteousness in caring for the poor and oppressed.

Museums and the Shaping of Knowledge Eileen Hooper Greenhill 1992-01-23 Museums have been active in shaping knowledge over the last six hundred years. Yet what is their function within today's society? At the present time, when funding is becoming increasingly scarce, difficult questions are being asked about the justification of museums. *Museums and the Shaping of Knowledge* presents a critical survey of major changes in current assumptions about the nature of museums. Through the examination of case studies, Eileen Hooper-Greenhill reveals a variety of different roles for museums in the production and shaping of knowledge. Today, museums are once again organising their spaces and collections to present themselves as environments for experimental and self-directed learning.

They Like Jesus but Not the Church Dan Kimball 2009-05-26 Many people today, especially among emerging generations, don't resonate with the church and organized Christianity. Some are leaving the church and others were never part of the church in the first place. Sometimes it's because of misperceptions about the church. Yet often they are still spiritually open and fascinated with Jesus. This is a ministry resource book exploring six of the most common objects and misunderstandings emerging generations have about the church and Christianity. The objections come from conversations and interviews the church has had with unchurched twenty and thirty-somethings at coffee houses. Each chapter raises the objection using a conversational approach, provides the biblical answers to that objection, gives examples of how churches are addressing this objection, and concludes with follow-through projection suggestions, discussion questions, and resource listings.

Zombie Church Tyler Edwards 2011-12-13 There is something missing in the church today. Stuck in a rut of routines and rituals, the church is caught up in doing what it is "supposed to do" but is lacking the true essence of what it is supposed to provide: life. Real faith--and a real relationship with Jesus--is not about playing by the rules, attending services, and praying before meals. Real faith is more than religion. Believing there is a way to breathe life back into the church, Tyler Edwards adopts a contemporary and entertaining metaphor--zombies--to highlight and challenge the problematic attitude of today's believers.

Worship for the Whole People of God Ruth C. Duck 2013 This new book on worship by renowned hymn writer and professor Ruth C. Duck provides theological foundations for worship and explores the variety of ways Christians have adapted worship to various cultures to help them live faithfully and to communicate the Gospel to others. The author celebrates the many languages and cultural settings in which the Gospel has been, and is, preached, sung, and prayed. The goal of this volume is to support good pastoral and congregational reflection on what worship is and does. Consequently, Duck discusses many different forms of worship from several

cultures (African-American, Asian, Euro-American) and offers advice on how to read a congregation and define its culture in order to plan culturally appropriate worship. Although the book does not offer prescriptive formulas or advise a single pattern of worship, it includes many practical suggestions for preparing and leading worship, including diverse ministries of music, movement, and visual arts that are becoming more popular today. From worship's theological underpinnings, the book turns to worship leadership, forms of prayer, preaching, the sacraments, ordination, and various liturgies. Because of its emphasis on Spirit-led worship, this comprehensive book on Christian worship will be used for years to come not only as a core textbook for seminarians and ministry students from a variety of cultures and traditions, but also as a resource for local church pastors and laity who are dedicated to the enlivening of Christian worship.

The Contemporary Museum Simon Knell 2018-09-04 *The Contemporary Museum* issues a challenge to those who view the museum as an artefact of history, constrained in its outlook as much by professional, institutional and disciplinary creed, as by the collections it accumulated in the distant past. Denying that the museum can locate its purpose in the pursuit of tradition or in idealistic speculation about the future, the book asserts that this can only be found through an ongoing and proactive negotiation with the present: the contemporary. This volume is not concerned with any present, but with the peculiar circumstances of what it refers to as the 'global contemporary' - the sense of living in a globally connected world that is preoccupied with the contemporary. To situate the museum in this world of real and immediate need and action, beyond the reach of history, the book argues, is to empower it to challenge existing dogmas and inequalities and sweep aside old hierarchies. As a result, fundamental questions need to be asked about such things as the museum's relationship to global time and space, to systems and technologies of knowing, to 'the life well lived', to the movement and rights of people, and to the psychology, permanence and organisation of culture. Incorporating diverse viewpoints from around the world, *The Contemporary Museum* is a follow-up volume to *Museum Revolutions* and, as such, should be essential reading for students in the fields of museum and heritage studies, cultural studies, communication and media studies, art history and social policy. Academics and museum professionals will also find this book a source of inspiration.

The Worship Pastor Zac M. Hicks 2016-10-11 Modern worship leaders are restless. They have inherited a model of leadership that equates leading worship with being a rock star. But leading worship is more than a performance, it's about shaping souls and making disciples. Every worship leader is really a pastor. *The Worship Pastor* is a practical and biblical introduction to this essential pastoral role. Filled with engaging, illustrative stories it is organized to address questions of theory and practice, striving to balance conversational accessibility with informed instruction. Part One presents a series of evocative "vignettes"--intriguing and descriptive titles and metaphors of who a Worship Pastor is and what he or she does. It shows the Worship Pastor as Church-Lover, Disciple Maker, Corporate Mystic, and Doxological Philosopher. Part Two covers specific roles related to ministry within the worship service itself--the Worship Pastor as Theological Dietician, Caregiver, Mortician, Emotional Shepherd,

War General, Prophetic Guardian, Missional Historian, and Liturgical Architect. Part Three looks at ministry beyond the worship service--the Worship Pastor as Visionary Teacher, Evangelist, Artist Chaplain, and Team Leader. While some worship leaders are eager to embrace their pastoral role, many are lost and confused or lack the resources of time or money to figure out what this role looks like. Pastor Zac Hicks gives us a clear guide to leading worship, one that takes the pastoral call seriously.

The Worshiping Body Kimberly Bracken Long 2009-01-01 Kimberly Bracken Long, by focusing on what presiders do with their bodies, eyes, ears, lips, hands, feet, and heart, describes an attitude and style of worship leadership that is both firmly rooted and blessedly free. A wonderful offering for all worship presiders, seminarians, commissioned lay pastors, new pastors, and experienced pastors, *The Worshiping Body* is essential reading for anyone interested in how their presence and movement during worship make a difference.

The Tangible Kingdom Hugh Halter 2008-11-03 Written for those who are trying to nurture authentic faith communities and for those who have struggled to retain their faith, *The Tangible Kingdom* offers theological answers and real-life stories that demonstrate how the best ancient church practices can re-emerge in today's culture, through any church of any size. Let's Kill Sunday School Rich Melheim 2014-10-10 Sunday School was never intended for Christian children from Christian homes. It was set up for illiterate, shoplifting street urchins in Dickensian England who had no parents to teach them the faith. Today the system that was set up to help spiritual orphans is creating them. We think it's time to change that but designing the wisdom of the elder and the wonder of the child in the same sacred space every week at church, and a simple five step (www.faith5.org) nightly home ritual that will strengthen the family.

Creative Ideas for Sacramental Worship with Children Simon Rundell 2011 Do you want to involve children in the sacramental life of the church? The Art of Curating Worship Mark Pierson 2010 *The Art of Worship* is about transitioning our understanding and practice of worship to one of design or curation. According to Mark Pierson, a pioneer in worship, worship needs to

be seen as an art form rather than a linear task of filling in the gaps on an order of service. Many practical examples are used to illustrate ways in which worship in regular services as well as in specially designed spaces inside and outside the church building can be designed and delivered for spiritual formation and mission.

The Art of South and Southeast Asia Steven Kossak 2001 Presents works of art selected from the South and Southeast Asian and Islamic collection of The Metropolitan Museum of Art, lessons plans, and classroom activities.

The Art of Curating Worship Mark Pierson 2012 Mark Pierson is a strikingly original thinker and practitioner whose influence on alternative worship and emerging church forms has spread worldwide. Whatever our church tradition - liturgical, evangelical, charismatic or alternative, Mark's challenge is clear: tired patterns of worship do not engage with people beyond the regular congregation (and sometimes not even with them). The last place that many genuine spiritual seekers would try is church. He shows a way of thinking about and practicing worship where real connection with God can happen. The idea of 'curating' rather than leading worship invites a potentially huge mind shift about worship practice. Leading worship is not about staying in control of content or delivery, but about exploring creatively the riches of our traditions, the arts, our buildings, music and language to offer worship that better reflects the glory of God. This inspiring, practical book raises the bar in terms of what we expect from worship and then gives us the courage, vision and resources to bring it about.
