Illustration in Fin-de-Siècle Transatlantic Romance Fiction Kate Holterhoff 2022-03-07 This book examines illustrations created to accompany fictions written by several of the most popular authors published in Britain and America between 1885 and 1920. By studying the lavish illustrations that complemented not only initial serializations, but also subsequent publications of fictions by H. Rider Haggard, Rudyard Kipling, James De Mille, Robert Louis Stevenson, and H. G. Wells, the book demonstrates the significance of images to the fin de siècle romance form. In order to make fantastic plots seem possible, graphic artists worked hand in hand with authors to not only fill gaps in audience understanding, but also expand and deepen the meaning of these marvels. The book will be of interest to

scholars working in art history, visual culture, illustration studies, British and American history, and British and American literature.

*The Good Inn* Black Francis 2014-07-29 From Pixies front man, Black Francis, comes a bold and visually arresting illustrated novel about art, conflict, and the origins of a certain type of cinema. In 1907, the French battleship *Iéna* was destroyed when munitions it was carrying exploded, killing 120 people. A nitrocellulose-based weapon propellant had become unstable with age and self-ignited. In 1908, *La Bonne Auberge* became the earliest known pornographic film. It depicted a sexual encounter between a French soldier and an innkeeper's daughter. Like all films at the time, and for decades afterward, it was made with a highly combustible nitrocellulose-based film stock. Loosely based on these historical events, *The Good Inn* follows the lone survivor of the *Iéna* explosion as he makes his way through the French countryside, has a sexual adventure with an innkeeper's daughter, and even more deeply into a strange counter universe. It is a volatile world where war and art exist side by side. It is also the very real story of the people who made the first narrative pornographic film. The novel weaves together real historical facts to recreate this lost piece of history, as seen through the eyes of a shell-shocked soldier who finds himself the subject and star of the world's first stag film. Through *Soldier Boy's* journey we explore the power of memory, the simultaneously destructive and healing power of light, and how the early pioneers of stag films helped shape the film industry for generations to come.

**The Double Screen Wu Hung 1996-11-22** This book contemplates a large problem: what is a traditional Chinese painting? Wu Hung answers this question through a comprehensive analysis of the screen, a major format and a popular pictorial motif in traditional China. With a broad array of examples ranging from the early centuries C.E. to the 1800s, he explores the screen's position in art – as an important site for artistic imagination, as an illusionary representation on a flat surface, and as an architectural device defining cultural conventions. A screen occupies a space and divides it, supplies an ideal surface for painting, and has been a favourite pictorial image in Chinese art since antiquity. With its diverse roles, the screen has provided Chinese painters with endless opportunities to reinvent their art. The author argues that any understanding of Chinese painting must include discussion of its material forms as well as its intimate connection with cultural context and convention. Thus, *The Double Screen* offers a powerful non-western perspective on diverse artistic and cultural genres, from portraiture and pictorial narrative to voyeurism and masquerade, and will be invaluable to anyone interested in the history of art and Asian studies as well as to students and specialists in the field.

**Silver Screen, Hasidic Jews Shaina Hammerman 2018-01-06** Motivated by Woody Allen's brief comedic transformation into a Hasidic Jew in *Annie Hall*, cultural historian Shaina Hammerman examines the effects of real and imagined representations of Hasidic Jews in film, television, theater, and photography. Although these depictions could easily be dismissed as slapstick comedies and sexy dramas about forbidden relationships, Hammerman uses this ethnic imagery to ask meaningful questions about how Jewish identity, multiculturalism, belonging, and relevance are constructed on the stage and silver screen.

**Looking Past the Screen Jon Lewis 2007-10-01** Film scholarship has long been dominated by textual interpretations of specific films. *Looking Past the Screen* advances a more expansive American film studies in which cinema is understood to be a social, political, and cultural phenomenon extending far beyond the screen. Presenting a model of film studies in which films themselves are only one source of information among many, this volume brings together film histories that draw on primary sources including collections of personal papers, popular and trade journalism, fan magazines, studio publications, and industry records. Focusing on Hollywood cinema from the teens to the 1970s, these case studies show the value of this extraordinary range of historical materials in developing

interdisciplinary approaches to film stardom, regulation, reception, and production. The contributors examine State Department negotiations over the content of American films shown abroad; analyze the star image of Clara Smith Hamon, who was notorious for having murdered her lover; and consider film journalists' understanding of the arrival of auteurist cinema in Hollywood as it was happening during the early 1970s. One contributor chronicles the development of film studies as a scholarly discipline; another offers a sociopolitical interpretation of the origins of film noir. Still another brings to light Depression-era film reviews and Production Code memos so sophisticated in their readings of representations of sexuality that they undermine the perception that queer interpretations of film are a recent development. *Looking Past the Screen* suggests methods of historical research, and it encourages further thought about the modes of inquiry that structure the discipline of film studies. Contributors. Mark Lynn Anderson, Janet Bergstrom, Richard deCordova, Kathryn Fuller-Seeley, Sumiko Higashi, Jon Lewis, David M. Lugowski, Dana Polan, Eric Schaefer, Andrea Slane, Eric Smoodin, Shelley Stamp

*Strongheart: Wonder Dog of the Silver Screen* Candace Fleming  
2018-02-06 For fans of *Balto* and other real-life dog stories, here's a heavily illustrated middle-grade novel about a canine movie star of the 1920s, dramatically told in both words and pictures by an acclaimed author and a Caldecott Medal-winning illustrator. When movie director Larry Trimble travels to Berlin searching for his next big star--a dog!--he finds Etzel, a fierce, highly trained three-year-old German shepherd police dog. Larry sees past the snarls and growls and brings Etzel back to Hollywood, where he is renamed Strongheart. Along with screenwriter Jane Murfin, Larry grooms his protégé to be a star of the silver screen--and he succeeds, starting with Strongheart's first film, *The Love Master*, which is released in 1921. Strongheart is soon joined by a leading lady, a German shepherd named Lady Julie, and becomes a sensation. Touching, charming, playful, and based on real events, this moving tale by Candace Fleming and illustrated by Eric Rohmann tells all about "the wonder dog" who took America by storm. *Cinema, MD* Eelco F. M. Wijdicks 2020 *Cinema, MD* follows the intersection of medicine and film and how filmmakers wrote a history of medicine over time, analyzing not only changing practices, changing morals, and changing expectations but also medical

stereotypes, medical activism, and violations of patients' integrity and autonomy. Examining over 400 films with medical themes over a century of cinema, this book establishes the cultural, medical, and historical importance of the artform.

The Oxford Illustrated History of Science Iwan Rhys Morus 2017-06-09  
The Oxford Illustrated History of Science is the first ever fully illustrated global history of science, from Aristotle to the atom bomb - and beyond. The first part of the book tells the story of science in both East and West from antiquity to the Enlightenment: from the ancient Mediterranean world to ancient China; from the exchanges between Islamic and Christian scholars in the Middle Ages to the Chinese invention of gunpowder, paper, and the printing press; from the Scientific Revolution of sixteenth and seventeenth century Europe to the intellectual ferment of the eighteenth century. The chapters that follow focus on the increasingly specialized story of science since end of the eighteenth century, covering experimental science in the laboratory from Michael Faraday to CERN; the exploration of nature, from intrepid Victorian explorers to twentieth century primatologists; the mapping of the universe, from the discovery of Uranus to Big Bang theory; the impact of evolutionary ideas, from Lamarck, Darwin, and Wallace to DNA; and the story of theoretical physics, from James Clark Maxwell to Quantum Theory and beyond. A concluding chapter reflects on how scientists have communicated their work to a wider public, from the Great Exhibition of 1851 to the internet in the early twenty-first century.

Screening Economies Daniel Cuonz 2018-10-31 The relationship between economy, finance and society has become opaque. Quantum leaps in complexity and scale have turned this deeply interdependent web of relations into an area of incomprehensible abstraction. And while the economization of life has come under widespread critique, inquiry into the political potential of representational praxis is more crucial than ever. This volume explores ethical, aesthetic and ideological dimensions of economic representation, redressing essential questions: What are the roles of mass and new media? How do the arts contribute to critical discourse on the global techno-economic complex? Collectively, the contributions bring theoretical debate and artistic intervention into a rich exchange that includes

but also exceeds the conventions of academic scholarship.

**THE COMPLETE SHORT STORIES OF NATHANIEL HAWTHORNE (Illustrated)**  
Nathaniel Hawthorne 2017-08-07 This carefully edited collection of "THE COMPLETE SHORT STORIES OF NATHANIEL HAWTHORNE (Illustrated)" has been designed and formatted to the highest digital standards and adjusted for readability on all devices. Excerpts: "I am afraid this ghost story will bear a very faded aspect when transferred to paper. Whatever effect it had on you, or whatever charm it retains in your memory, is, perhaps, to be attributed to the favorable circumstances under which it was originally told." (The Ghost of Doctor Harris)

American novelist and short story writer Nathaniel Hawthorne (1804-1864) published his first work, a novel titled Fanshawe, in 1828; he later tried to suppress it, feeling it was not equal to the standard of his later work. He published several short stories in various periodicals, which he collected in 1837 as *Twice-Told Tales*. Much of Hawthorne's writing centres on New England, many works featuring moral allegories with a Puritan inspiration. His fiction works are considered to be part of the Romantic movement and, more specifically, Dark romanticism. His themes often centre on the inherent evil and sin of humanity, and his works often have moral messages and deep psychological complexity.
